---

Counsel and QBE Representatives,

Please find attached a motion filed in the United States District Court for the Southern District of New York in *Mphasis Corporation v. Rojas*, Case No. 25-cv-3175.

The filing includes Defendant's integrated response to the complaint and preliminary injunction motion (Motion Response 16), as well as a standalone motion to compel QBE to issue a shipping label for return of corporate property or appear and show cause for continued delays.

Respectfully,  
Albert Rojas  
Pro Se Defendant  
[rojas.albert@gmail.com](mailto:rojas.albert@gmail.com)  
(646) 866-1669

v.  
**Albert Rojas,**  
Defendant.

**Case No. 25-cv-3175**

**NOTICE OF STANDALONE RELIEF SOUGHT**

**Motion to Compel Non-Party QBE to Provide Shipping Materials or Show Cause**

Defendant Albert Rojas, appearing pro se, respectfully submits this Notice to clarify that within the attached consolidated response and memorandum, beginning on page [insert page number], he seeks **distinct affirmative relief** in the form of a **motion to compel non-party QBE to provide shipping materials for the return of a corporate-issued laptop**, or, in the alternative, to **show cause for its continued refusal to do so**.

This relief is sought pursuant to **Federal Rule of Civil Procedure 37** and concerns ongoing delay, obstruction, and potential regulatory noncompliance on the part of QBE, which continues to refuse to issue a FedEx shipping label despite Defendant's repeated efforts since December 2024.

Defendant respectfully requests that the Court treat this portion of the integrated filing as a **standalone motion** and issue a separate docket entry or ruling as appropriate.

Dated: April 29, 2025  
Respectfully submitted,  
**Albert Rojas**

**NOTICE OF MOTION TO COMPEL QBE TO PROVIDE RETURN  
SHIPPING MATERIALS OR SHOW CAUSE**

PLEASE TAKE NOTICE that Defendant Albert Rojas, appearing pro se, hereby moves this Court pursuant to Federal Rule of Civil Procedure 37 for an order compelling non-party QBE to:

1. Provide Defendant with a FedEx shipping label and appropriate return materials within three (3) days of the Court's order to facilitate the return of a QBE-issued Dell laptop containing corporate data; or
2. In the alternative, appear and show cause within seven (7) days of the Court's order why it has failed to do so despite Defendant's documented, repeated efforts to facilitate return since December 2024.

This motion is supported by the accompanying Memorandum of Law, Declaration of Albert Rojas, and Proposed Order.

UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK

Mphasis Corporation, Plaintiff, v. Albert Rojas, Defendant. Case No. 25-cv-3175

NOTICE OF FILING

Albert Rojas (Defendant), appearing pro se, respectfully submits this integrated filing in response to Plaintiff Mphasis Corporation's Complaint and Motion for Preliminary Injunction:

1. Memorandum of Law in Opposition to Plaintiff's Motion for Preliminary Injunction and in Support of Defendant's Motion to Dismiss;
2. Answer, Affirmative Defenses, and Counterclaims;
3. Enhanced Whistleblower Defense and Legal Strategy.

This response asserts statutory immunities, equitable defenses, and counterclaims rooted in whistleblower protections and retaliation statutes.

**Key Filing Summary (Mphasis v. Rojas, 25-cv-3175 SDNY):**

Albert Rojas filed an integrated Motion Response opposing Mphasis's preliminary injunction request and moving to dismiss claims under the DTSA, CFAA, and trademark law. The filing asserts whistleblower immunity (DTSA §1833(b), SOX, Dodd-Frank, NYLL §740), equitable defenses (unclean hands, estoppel), and counterclaims (retaliation, defamation, emotional distress).

**Highlights:**

- Demonstrates Mphasis's failure to provide secure infrastructure, undermining its own claims.
- Asserts protected whistleblower activity exposing cybersecurity, compliance, and discrimination issues.
- Establishes that no trade secret or system breach was possible given technical restrictions imposed by Mphasis itself.
- Defends domain and email use as lawful, nominative fair use to surface protected disclosures.
- Cites proportional mitigation actions (content removals and disclaimers) to eliminate any alleged harm.
- Demands dismissal with prejudice, compensatory and punitive damages, discovery into Mphasis's conduct, and declaratory relief affirming whistleblower protections.

Filed Pro Se by Albert Rojas on April 24, 2025.

**I. PRELIMINARY STATEMENT**

Plaintiff Mphasis seeks extraordinary equitable relief to suppress protected whistleblower disclosures through contract and intellectual property claims. Defendant's disclosures surfaced

serious compliance failures, discriminatory practices, and cybersecurity risks—all protected under DTSA §1833(b), SOX §1514A, Dodd-Frank §78u-6(h), and NYLL §740.

Mphasis's failure to provision standard infrastructure (e.g., domain-joined laptop, VPN) rendered compliance impossible, while its selective policy enforcement and retaliation underscore inequitable conduct barring relief. Defendant acted in good faith within statutory protections, and Plaintiff's claims should be denied on both legal and equitable grounds.

As detailed below, Defendant's protected whistleblower activity lies at the core of this dispute, underscoring that Plaintiff's claims arise not from misconduct but from a retaliatory effort to silence these disclosures.

The persistent irregularities and obstruction surrounding the return of a basic corporate asset—detailed in Exhibit (M)—underscore why Defendant previously raised concerns that QBE and Mphasis may be engaged in improper financial conduct, potentially rising to the level of money laundering. Such prolonged disorganization and obfuscation are inconsistent with standard corporate governance and incompatible with the practices of reputable global enterprises.[1] [2]

[1] See 31 U.S.C. § 5324 (prohibiting "structuring" transactions to evade reporting requirements under the Bank Secrecy Act); see also U.S. Department of Justice, Criminal Resource Manual § 2102 (defining "structuring" and related practices as efforts to obscure asset movement or evade financial reporting duties, often indicative of broader anti-money laundering (AML) violations). Persistent asset handling irregularities, unexplained delays, or obstruction in asset tracking processes may trigger investigatory scrutiny under AML frameworks designed to prevent concealment or misreporting of corporate assets.

[2] See Sarbanes-Oxley Act of 2002, §404, 15 U.S.C. §7262 (requiring public companies to establish and maintain adequate internal control structures for financial reporting, including asset accountability). Material weaknesses in asset tracking, failure to ensure custody of corporate property, or persistent delays in asset recovery may constitute internal control failures under SOX §404, exposing companies to regulatory action and undermining the integrity of their financial statements.

## II. INTRODUCTION

### **Defendant's Protected Whistleblower Activity Lies at the Heart of This Dispute**

This case arises not from misconduct, but from **protected whistleblower activity**. Defendant Albert Rojas acted in good faith to raise serious concerns about **Mphasis Corporation's cybersecurity failures, policy enforcement breakdowns, and potential discriminatory practices**—issues directly impacting client security and regulatory compliance. These disclosures were made pursuant to and are expressly protected under the **Defend Trade Secrets Act (DTSA) §1833(b)**, the **Sarbanes-Oxley Act (SOX)**, the **Dodd-Frank Act**, and **New York Labor Law §740**.

Rather than address the substance of Defendant's concerns, Mphasis responded with **retaliation**—terminating his employment, mischaracterizing his lawful disclosures as misconduct, and weaponizing litigation to silence him. The **temporal proximity** between Defendant's disclosures and his termination, combined with Plaintiff's failure to secure its own infrastructure or address the compliance risks identified, underscore this retaliation.

Courts consistently recognize that **whistleblower protections** serve critical public interests, ensuring that concerns about cybersecurity vulnerabilities, compliance lapses, and discriminatory practices can be raised without fear of reprisal. Defendant's disclosures were **noncommercial, truthful, and made in the public interest**. The subsequent **retaliation** not only violates these statutory protections but undermines the **public trust in safeguarding whistleblower rights**.

This case is, at its core, about protecting **lawful disclosures** and ensuring that **corporate retaliation** is not used as a cudgel against those who speak out. Defendant respectfully requests that this Court view the allegations in this context, as the **statutory framework demands**.

### III. LEGAL ARGUMENTS

#### A. Preliminary Injunction Must Be Denied

Mphasis fails to meet the required elements for a preliminary injunction: (1) irreparable harm; (2) likelihood of success; (3) balance of hardships; and (4) public interest.

1. **No Irreparable Harm:** Plaintiff fails to demonstrate any concrete, non-speculative irreparable harm. Courts have consistently held that reputational harm, without evidentiary support, is insufficient to establish irreparable injury. See *Anderson v. City of New York*, 2014 WL 5461395, at \*11 (S.D.N.Y. Oct. 28, 2014) (denying injunctive relief where reputational harm was speculative). Here, Plaintiff's claims rest on generalized assertions of reputational damage, unsupported by affidavits, declarations, or concrete examples of lost business or goodwill.

Moreover, injunctions are disfavored where monetary relief is adequate. See *eBay Inc. v. MercExchange*, 547 U.S. 388, 391-93 (2006). Plaintiff alleges reputational harm without evidentiary support, which courts consistently hold as insufficient to establish irreparable injury. Any alleged harm is compensable through monetary damages, precluding the extraordinary remedy of injunctive relief.

Defendant, in a good faith effort to mitigate any asserted concerns while preserving his statutory rights, has voluntarily removed the contested whistleblower disclosures from the referenced websites and replaced them with a neutral holding statement. The current content merely acknowledges the existence of ongoing legal proceedings and references federal whistleblower protections under 18 U.S.C. § 1833(b) (Defend Trade Secrets Act immunity), 18 U.S.C. § 1514A (Sarbanes-Oxley), and 15 U.S.C. § 78u-6(h) (Dodd-Frank). This measured and proportionate response underscores Defendant's commitment to lawful engagement and eliminates any credible risk of ongoing harm.

Plaintiff's claims of irreparable injury are further undercut by this action. With no imminent or continuing threat, Plaintiff cannot meet its burden to demonstrate the irreparable harm required for preliminary injunctive relief. Plaintiff's damages theory is speculative at best. Mphasis fails to allege, much less prove, any actual loss of business, client relationships, or revenue resulting from Defendant's conduct. Courts require a concrete showing of economic harm—not generalized reputational concerns—to support damages claims.

See *Lexmark Int'l v. Static Control Components*, 572 U.S. 118, 133 (2014) (damages require proximate causation, not speculation); *Anderson v. City of New York*, 2014 WL 5461395, at \*11 (S.D.N.Y. Oct. 28, 2014) (reputational harm without concrete evidence insufficient).

Moreover, Defendant's disclosures were made in good faith to raise concerns regarding systemic policy failures and compliance risks—conduct expressly protected under federal whistleblower statutes. The proportional steps taken to pause those disclosures pending resolution of these proceedings reflect both Defendant's respect for this Court's authority and the balance of equities, which weighs against injunctive relief.

2. **Lack of Likelihood of Success:** Defendant's actions are shielded by statutory whistleblower protections. DTSA §1833(b) immunizes disclosures made to report suspected lawbreaking. SOX and Dodd-Frank protect even mistaken but objectively reasonable disclosures. Further, Mphasis's unclean hands—failure to provision infrastructure while alleging policy violations—undermines its claims. Plaintiff's reliance on Defendant's work product post-termination further negates any claim of harm.
3. **Balance of Hardships Favors Defendant:** Defendant faces significant hardship from suppression of protected speech, while Plaintiff faces no cognizable harm beyond exposure of its own misconduct. The equities decisively favor Defendant.
4. **Public Interest Supports Disclosure:** Whistleblower disclosures serve the public interest in transparency and accountability. An injunction would chill protected reporting of compliance failures and cybersecurity risks.

## **B. Complaint Should Be Dismissed in Part**

### **Dismissal of DTSA and CFAA Claims is Mandated by Plaintiff's Own Admissions**

**Plaintiff's DTSA and CFAA claims are not merely deficient; they are categorically impossible.** Mphasis's own internal communications, specifically the December 18, 2024 directive from its Senior U.S. Administration Officer, barred Defendant from accessing any internal systems where alleged trade secrets or protected data reside. Defendant was expressly limited to **web-only access**, denied a **domain-joined laptop**, **VPN credentials**, and any **system-level permissions**. Without these mechanisms, Defendant lacked the technical means to download, store, or interact with any proprietary Mphasis information beyond ephemeral viewing.

This **structural denial of access** is dispositive. The **absence of access** forecloses any plausible claim under the **Defend Trade Secrets Act (DTSA)** or the **Computer Fraud and Abuse Act (CFAA)**. Courts routinely dismiss such claims where access is **technically impossible**. See *Elsevier Inc. v. Doctor Evidence, LLC*, No. 17-cv-5540, 2018 WL 557906, at 5 (*S.D.N.Y. Jan. 23, 2018*) (dismissing trade secret claim where defendant lacked access to internal systems). Moreover, the **CFAA** targets only **unauthorized access** (i.e., hacking), not policy violations or perceived misuse of information. See *Van Buren v. United States*, 141 S. Ct. 1648, 1655 (2021) (holding CFAA liability applies solely to unauthorized system access, not misuse of authorized access).

Additionally, **Defendant's disclosures fall squarely under DTSA §1833(b) immunity**, which protects whistleblower disclosures made to report or investigate suspected legal violations. Even mistaken, but objectively reasonable, disclosures receive protection under this statute as well as **SOX** and **Dodd-Frank**. Furthermore, **Plaintiff's own infrastructure failures**, including its refusal to provision domain-joined hardware and VPN access, **necessitated Defendant's external access for operational continuity**. This operational necessity, induced by Plaintiff, further bars CFAA claims under both statutory interpretation and **equitable estoppel**. See *Heckler v. Community Health Services*, 467 U.S. 51, 59 (1984) (estoppel applies where a party induces reliance on deficient conditions). Equitable defenses, including **unclean hands** and estoppel, preclude these claims entirely.

**Discovery cannot manufacture access where none existed**. Plaintiff's own admissions confirm that Defendant never possessed the technical capacity to interact with the systems allegedly breached. Allowing these claims to survive would **weaponize litigation** to punish protected **whistleblower disclosures**, subverting statutory purpose and judicial economy.

**Accordingly, Plaintiff's DTSA and CFAA claims must be dismissed with prejudice.**

If Plaintiff nonetheless contends that Defendant circumvented these explicit access restrictions without the tools Mphasis itself refused to provide, **such a claim amounts to an admission that Mphasis's cybersecurity posture is so fundamentally compromised that it could be penetrated by an employee using only a personal MacBook and limited web portal access**. The only other explanation—that **Defendant possesses supernatural capabilities—falls outside the jurisdiction of this Court**.

### **C. Trademark & Defamation Claims Are Factually and Legally Defective**

Plaintiff's **trademark** and **defamation** claims fare no better. Both are barred by the **First Amendment**, **fair use**, and **whistleblower protections**. Defendant's use of the "Mphasis" name and logo on whistleblower websites, and in related communications, falls squarely within the scope of **nominative fair use** and **protected speech** under established case law.

In *Rogers v. Grimaldi*, 875 F.2d 994 (2d Cir. 1989), and *Cliffs Notes, Inc. v. Bantam Doubleday Dell Publ'g Group, Inc.*, 886 F.2d 490 (2d Cir. 1989), the Second Circuit recognized that **use of a trademark for purposes of criticism or commentary** does not

constitute infringement. Defendant's websites did not offer competing services or commercialize Mphasis's mark—they served solely to **disclose concerns** regarding Mphasis's **cybersecurity failures, discriminatory practices, and compliance risks**. Such **noncommercial, whistleblower disclosures** are protected under both **nominative fair use** and **parody doctrines**.

Additionally, the **Defend Trade Secrets Act (DTSA) §1833(b), Sarbanes-Oxley Act (SOX), and Dodd-Frank Act** shield whistleblower disclosures made to expose suspected legal violations. Plaintiff's attempt to recast these disclosures as **defamation** is nothing more than a **retaliatory maneuver**, in direct contravention of statutory protections. Courts have consistently rejected attempts to use **defamation law** to punish whistleblower disclosures concerning **compliance failures and public interest matters**. See *Yang v. Navigators Grp., Inc.*, 18 F. Supp. 3d 519, 532 (S.D.N.Y. 2014) (denying injunctive relief where disclosures addressed compliance failures).

Moreover, **truth** is an absolute defense to defamation. Plaintiff has failed to identify **any false statements of fact** made by Defendant. Instead, the contested content reflects **protected opinions and truthful disclosures** regarding Mphasis's conduct. In fact, Mphasis's own actions—denying Defendant access to secure systems, then alleging misconduct based on the conditions they imposed—underscore the **truthful basis** of Defendant's statements.

Even if the Court finds certain aspects of Defendant's disclosures arguable, **any injunctive relief must be narrowly tailored**. Defendant voluntarily **removed the contested websites** and **replaced them with neutral legal disclaimers** pending resolution of these proceedings. This proportional response demonstrates **good faith** and eliminates any credible risk of ongoing harm. Under *Salinger v. Colting*, 607 F.3d 68 (2d Cir. 2010), courts must ensure that **injunctions do not suppress protected speech or chill whistleblower activity**.

Accordingly, Plaintiff's **trademark and defamation** claims should be **dismissed**, or at minimum, **curtailed** consistent with First Amendment principles.

#### D. Mphasis's Alleged Harm Highlights Its Own Security Failures—Undermining Claims and Exposing Systemic Weaknesses

Plaintiff Mphasis's assertion that Defendant could cause irreparable harm without ever having access to its internal domain, systems, or secure infrastructure—operating solely from a personal MacBook via limited web access—is not only factually implausible but highlights a glaring weakness in Mphasis's cybersecurity posture. This allegation is an admission against interest: if Defendant, armed only with constrained web access and no domain-joined laptop, could truly compromise Mphasis's purported trade secrets or sensitive data, then Plaintiff's entire cybersecurity framework stands as fundamentally deficient.

Such a scenario is particularly egregious for a company that markets itself as a provider of cybersecurity services. A failure to enforce basic endpoint segregation between client environments and internal systems, while simultaneously refusing to provision standard

infrastructure for a contractor, is a breakdown of Plaintiff's own governance, risk, and compliance (GRC) protocols.

Plaintiff's own admission—confirmed in the December 18, 2024 communication from Jared Bulger (Senior U.S. Administration Officer)—makes clear:

"You can use personal machines, but you will be limited to WEB Version only... ONLY Mphasis domain-joined machines can use Desktop apps, which allow downloading and storing of Mphasis data." (Exhibit B)

Given this structural limitation, Mphasis's claim that Defendant's actions could result in irreparable harm is not only speculative but embarrassing, as it suggests that Mphasis's information security controls are so inadequate that a contractor without proper access could inflict damage. This undercuts their entire claim under both the Defend Trade Secrets Act (DTSA) and Computer Fraud and Abuse Act (CFAA), which require the plaintiff to demonstrate reasonable measures taken to secure trade secrets and restrict unauthorized access.

In sum, if Mphasis's allegations are taken at face value, they amount to a public confession of their own operational failures. This not only undermines their claims of irreparable harm but exposes the company to reputational risk based on their failure to secure sensitive information through industry-standard security measures.

Courts routinely find that plaintiffs who fail to take reasonable security steps to protect their purported secrets cannot maintain trade secret claims (see *Elsevier Inc. v. Doctor Evidence, LLC*, No. 17-cv-5540, 2018 WL 557906 (S.D.N.Y. Jan. 23, 2018)). Similarly, allegations of unauthorized access under the CFAA are barred where systemic access controls were not properly enforced (see *United States v. Nosal*, 844 F.3d 1024, 1035-36 (9th Cir. 2016)).

Accordingly, Mphasis's claim of irreparable harm is not only unsupported but self-defeating. Its cybersecurity posture—as revealed in this litigation—is ineffective, and its equitable standing before this Court is further eroded.

E. Even if the Court were to consider Plaintiff's speculative allegations, Defendant has acted proportionally and in good faith, voluntarily removing content to eliminate any ongoing harm, further defeating Plaintiff's request for injunctive relief.

Defendant, in a good faith effort to mitigate any asserted concerns while preserving his statutory rights, has voluntarily removed the contested whistleblower disclosures from the referenced websites and replaced them with a neutral holding statement. The current content merely acknowledges the existence of ongoing legal proceedings and cites federal whistleblower protections under 18 U.S.C. § 1833(b) (Defend Trade Secrets Act immunity), 18 U.S.C. § 1514A (Sarbanes-Oxley), and 15 U.S.C. § 78u-6(h) (Dodd-Frank). This measured response eliminates any credible risk of ongoing harm and reflects the proportionality recognized in *Winter v. Natural Resources Defense Council, Inc.*, 555 U.S. 7, 22 (2008), which requires that injunctive relief be no broader than necessary to prevent alleged harm.

Plaintiff cannot demonstrate the irreparable harm required for preliminary injunctive relief. As courts have repeatedly held, the mere possibility of harm is insufficient; there must be evidence of actual or imminent injury. See *eBay Inc. v. MercExchange, L.L.C.*, 547 U.S. 388, 391 (2006) (holding that injunctive relief requires proof of irreparable harm and a balance of hardships favoring the moving party). Here, Defendant's voluntary action has removed any such risk, and Plaintiff's speculative claims cannot meet this standard.

Furthermore, Defendant's disclosures constitute protected activity under federal whistleblower statutes, designed to expose potential compliance failures and safeguard the public interest. Under the Defend Trade Secrets Act, 18 U.S.C. § 1833(b), such disclosures made in confidence for the purpose of reporting legal violations are immune from liability. See *Unum Grp. v. Loftus*, No. 19 Civ. 2788 (PAB), 2020 WL 419405, at \*11 (S.D.N.Y. Jan. 27, 2020) (recognizing DTSA whistleblower immunity where disclosures were made to investigate or report suspected legal violations). Defendant's actions align squarely with these protections.

In light of Defendant's proportional response, the absence of ongoing harm, and the statutory immunity afforded to whistleblowers, the balance of equities and public interest strongly weigh against injunctive relief. See *Yang v. Navigators Grp., Inc.*, 18 F. Supp. 3d 519, 532 (S.D.N.Y. 2014) (denying injunction where plaintiff engaged in protected whistleblowing activities).

#### EQUITABLE DEFENSES: UNCLEAN HANDS AND ESTOPPEL

Plaintiff's infrastructure denial, coupled with its selective enforcement of policies that Defendant was structurally barred from complying with, further invokes the doctrines of unclean hands and equitable estoppel.

By failing to provision Defendant with the standard tools necessary for compliance—while simultaneously alleging violations of policies Defendant could neither access nor review—Mphasis induced the very conditions it now seeks to penalize. See *Heckler v. Community Health Services*, 467 U.S. 51, 59 (1984); *Dunlop-McCullen v. Local 1-S, RWDSU-AFL-CIO*, 149 F.3d 85, 90 (2d Cir. 1998); *Kosakow v. New Rochelle Radiology Assocs., P.C.*, 274 F.3d 706, 720-21 (2d Cir. 2001).

Accordingly, Plaintiff's hands remain unclean, barring equitable relief, including any preliminary injunction.

#### IV. ANSWER, AFFIRMATIVE DEFENSES, AND COUNTERCLAIMS

##### Affirmative Defenses:

- Statutory Immunity (DTSA §1833(b), SOX, Dodd-Frank, NYLL §740);

- Unclean Hands: Mphasis's selective enforcement and infrastructure denial preclude equitable relief;
- Equitable Estoppel: Defendant relied on Mphasis's operational conditions;
- Failure to State a Claim: Plaintiff's claims lack factual and legal basis.

Counterclaims:

- Retaliatory Termination under DTSA, SOX, Dodd-Frank, NYLL §740;
- Defamation: Misrepresentation of protected disclosures as misconduct;
- Intentional Infliction of Emotional Distress;
- Declaratory Judgment: Recognition of Defendant's disclosures as protected whistleblower activity.

V. ENHANCED WHISTLEBLOWER DEFENSE AND LEGAL STRATEGY

- Leverage statutory protections aggressively (DTSA, SOX, Dodd-Frank, NYLL);
- Document unclean hands: Infrastructure denial, DLP policy inconsistencies, age-based harassment;
- Challenge trademark and defamation claims as protected speech;
- Prepare to compel discovery: Provisioning records, DLP logs, QBE communications confirming reliance on Defendant's work post-termination.

VI. PRAYER FOR RELIEF

WHEREFORE, Defendant respectfully requests that the Court:

- Deny Plaintiff's Motion for Preliminary Injunction in its entirety;
- Dismiss Plaintiff's DTSA and CFAA claims with prejudice, based on statutory whistleblower immunity, lack of access, and equitable defenses;
- Dismiss Plaintiff's trademark and defamation claims, as barred by the First Amendment, fair use, and statutory whistleblower protections;
- Permit Defendant's affirmative defenses and counterclaims to proceed, including retaliation, defamation, and intentional infliction of emotional distress;
- Enter judgment for Defendant on his counterclaims, including:
  - a. Compensatory damages for retaliatory termination, including but not limited to lost income, lost earning capacity, and loss of professional reputation;
  - b. Compensatory damages for emotional distress, including anxiety, insomnia, social

isolation, and other documented mental health impacts, in an amount to be determined at trial, but consistent with awards in similar Second Circuit cases for severe emotional harm resulting from employer retaliation and litigation abuse.[1]

c. Punitive damages for willful, malicious retaliation and defamation, intended to deter such conduct under DTSA, SOX, Dodd-Frank, and New York law;

- Declaratory judgment affirming that Defendant's disclosures constitute protected whistleblower activity under DTSA §1833(b), SOX §1514A, Dodd-Frank §78u-6(h), and NYLL §740, immunizing Defendant from liability;
- Equitable relief, including either reinstatement of Defendant's employment or, in the alternative, an award of front pay and lost future earnings;
- Grant discovery into:
  - Plaintiff's provisioning practices, including denial of infrastructure (e.g., domain-joined laptops, VPN access);
  - Data Loss Prevention (DLP) logs and security audit reports to confirm the absence of any misappropriation or unauthorized access;
  - Client communications (e.g., QBE, Charles Schwab) regarding the absence of harm and reliance on Defendant's work product post-termination;
  - Internal HR records reflecting the timeline and basis of Defendant's termination;
- Award Defendant attorneys' fees and costs, as permitted under whistleblower retaliation statutes, including SOX and Dodd-Frank;

Additionally, Defendant requests that the Court order targeted discovery into the financial and asset-handling practices of Plaintiff Mphasis Corporation and its client QBE, including but not limited to any irregularities in asset return procedures, audit compliance, and financial reporting obligations, as documented in Exhibit (M). Defendant respectfully submits that the persistent delays, conflicting instructions, and obstruction surrounding the return of corporate property — uncharacteristic of reputable global enterprises — raise legitimate concerns of potential improper financial practices, possibly implicating anti-money laundering (AML) statutes and internal control deficiencies under Sarbanes-Oxley (SOX §404).

Grant such other and further relief as the Court deems just and proper.

Respectfully submitted,  
Albert Rojas (Pro Se)

[1] See *Ferraro v. Kellwood Co.*, 440 F.3d 96, 102-03 (2d Cir. 2006) (upholding \$500,000 emotional distress award for severe harm arising from employer's retaliation); *Mugavero v. Arms Acres, Inc.*, 680 F. Supp. 2d 544, 577 (S.D.N.Y. 2010) (awarding \$200,000 for emotional distress tied to retaliatory discharge); *Turley v. ISG Lackawanna, Inc.*, 774 F.3d 140, 162 (2d Cir. 2014) (affirming \$1.32 million emotional distress award in harassment case with egregious facts). These cases reflect the range of awards in the Second Circuit based on severity, duration, and psychological impact of the harm.

## APPENDIX A: SUPPLEMENTAL BRIEF IN SUPPORT OF DEFENDANT'S MOTION RESPONSE

UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK

Mphasis Corporation, Plaintiff, v. Albert Rojas, Defendant. Case No. 25-cv-3175

SUPPLEMENTAL REFINEMENTS TO MOTION RESPONSE 16

### I. CLARIFICATION ON EMAIL COMMUNICATIONS AND SPOOFING DEFENSE

Defendant Albert Rojas reiterates that the use of the domain "mphasis.it.com" and related email addresses, including "nitin.rakesh@mphasis.it.com," was not spoofing or deceptive impersonation, but rather a lawful, transparent method of whistleblower communication necessitated by Plaintiff's active suppression of standard communication channels.

#### Key Points:

1. No deceptive headers, metadata, or concealed sender identities were employed. All communications were authored by Defendant, using this alternative domain solely after Plaintiff and its counsel blocked Defendant's primary email (rojas.albert@gmail.com), effectively silencing protected disclosures (See Exhibit J).
2. Emails contained clear disclaimers identifying the sender as Albert Rojas and stating their purpose as whistleblower disclosures. This use falls under the nominative fair use doctrine (see *Rogers v. Grimaldi*, 875 F.2d 994 (2d Cir. 1989); *Nissan Motor Co. v. Nissan Computer Corp.*, 378 F.3d 1002 (9th Cir. 2004)). Defendant's use of "Mphasis" identifies the subject of critique and disclosures without creating confusion over origin.
3. Courts distinguish malicious spoofing from lawful nominative use designed to facilitate protected speech (see *Lamparello v. Falwell*, 420 F.3d 309 (4th Cir. 2005)). Defendant's actions align squarely with protected speech.
4. Defendant proposes that, if the Court deems necessary, further disclaimers or clarifications may be added to the domain or email footers to preclude any perceived confusion, consistent with narrowly tailored remedies over prior restraint (see *Salinger v. Colting*, 607 F.3d 68 (2d Cir. 2010)).

This defense invalidates Plaintiff's spoofing claims by demonstrating Defendant's transparency, necessity due to blocked channels, and alignment with established free speech protections.

## II. PUBLIC INTEREST IN CYBERSECURITY AND REGULATORY COMPLIANCE FAILURES

The disclosures made by Defendant concern systemic cybersecurity failures, including Mphasis's refusal to provision domain-joined laptops and enforce DLP protocols, which exposed U.S. financial sector clients to significant data security risks. These risks implicate regulatory frameworks such as the NIST SP 800-53 standards, the NY SHIELD Act, and the CCPA, underscoring that these are matters of public interest and not merely private disputes.

Courts have recognized that disclosures of cybersecurity failures impacting financial institutions are squarely within the public interest (see *Clapper v. Amnesty Int'l USA*, 568 U.S. 398 (2013)).

## III. CAUSAL CONNECTION BETWEEN PROTECTED DISCLOSURES AND RETALIATION

Defendant strengthens the causal nexus between his protected disclosures and retaliatory termination by presenting a detailed timeline:

- October 31, 2024: Defendant raised internal complaints regarding infrastructure denial.
- November 1, 2024: QBE laptop crash occurred due to cross-domain risks (EXHIBIT C).
- February 28 - March 7, 2025: Defendant reported DLP failures and faced age-based harassment (EXHIBIT D).
- March 12-14, 2025: Defendant escalated these issues during a formal CRO investigation.
- March 15, 2025: Mphasis issued a cease-and-desist letter (EXHIBIT H).
- April 16, 2025: Mphasis filed this lawsuit.

This sequence demonstrates clear temporal proximity and causation, consistent with retaliation standards set in *Clark County Sch. Dist. v. Breeden*, 532 U.S. 268 (2001), and *Fraser v. Fiduciary Trust Co. Int'l*, 417 F. Supp. 2d 310 (S.D.N.Y. 2006).

## IV. LEAST INTRUSIVE REMEDY

Even if the Court finds certain aspects of Defendant's disclosures arguable, any injunctive relief should be narrowly tailored. Defendant proposes that, if necessary, content modifications or enhanced disclaimers on whistleblower websites could adequately address Mphasis's concerns without suppressing protected speech, consistent with the principle that injunctions should be the least restrictive means (see *Salinger v. Colting*, 607 F.3d 68 (2d Cir. 2010)).

## V. FIRST AMENDMENT REINFORCEMENT

Defendant reiterates that the use of domains and communications addressing Mphasis's conduct falls squarely within the First Amendment's protection for critical speech and whistleblower disclosures. This aligns with the standards in *Rogers v. Grimaldi* and *Cliffs Notes, Inc. v. Bantam Doubleday Dell Publ'g Group, Inc.*, 886 F.2d 490 (2d Cir. 1989).

## VI. EMOTIONAL DISTRESS CLAIM

Defendant asserts a counterclaim for intentional infliction of emotional distress, stemming from Plaintiff's sustained retaliatory conduct:

1. Plaintiff denied Defendant essential infrastructure (e.g., domain-joined laptop, VPN), creating ongoing professional anxiety, client conflicts, and operational constraints (See Exhibit B).
2. Plaintiff engaged in age-based harassment, including derogatory "dinosaur" imagery and repeated remarks undermining Defendant's relevance (See Exhibit D). Such conduct satisfies the Second Circuit's standard for outrageousness in distress claims (see *Ferraro v. Kellwood Co.*, 440 F.3d 96 (2d Cir. 2006)).
3. Plaintiff weaponized legal processes, including the mischaracterization of protected whistleblower disclosures as spoofing and trademark infringement, exacerbating Defendant's distress and damaging his reputation.
4. Defendant has suffered severe emotional distress, including insomnia, anxiety, and social isolation, directly resulting from Plaintiff's retaliatory termination and aggressive litigation posture.

This claim meets the four-prong standard for intentional infliction of emotional distress:

- Plaintiff engaged in extreme and outrageous conduct.
- Plaintiff intended to cause distress or acted recklessly.
- Defendant suffered severe emotional distress.
- The distress was directly caused by Plaintiff's conduct.

Accordingly, Defendant seeks compensatory and punitive damages for this distress, reinforcing the counterclaims and affirmative defenses in this matter.

## VII. CONCLUSION

Defendant respectfully requests that the Court deny Plaintiff's Motion for Preliminary Injunction, uphold Defendant's affirmative defenses, and dismiss Plaintiff's claims with prejudice.

Respectfully submitted, Albert Rojas (Pro Se) 319 West 18th Street, 3F New York, NY 10011  
rojas.albert@gmail.com (646) 866-1669

EXHIBITS:

**EXHIBIT (A) Oct 9, 2024** – Interview and Client Engagement Confirmation;

**EXHIBIT (B) Oct 31 - Dec 17, 2024** – Infrastructure Denial and Compliance Barrier Correspondence; Email from Defendant to Mphasis’s Ethics & Compliance department raising **formal internal complaints**. In this detailed message (sent months before his termination), Defendant reported data security lapses, inconsistent policy enforcement, and potential discrimination. This exhibit is powerful evidence of Defendant’s **protected whistleblower activity** and provides crucial context: Mphasis was on notice of these issues internally, long before Defendant made any external disclosure.

**EXHIBIT (C) Nov 1, 2024** – QBE Laptop Crash Incident Report;

**Exhibit (D) Feb 28 - Mar 7, 2025** – QBE Presentation Routing and Age-Based Harassment Documentation; Email chain demonstrating Mphasis’s own role in the alleged “data breach.” A senior Mphasis manager (Raturaj Waghmode) emailed a confidential QBE presentation to Defendant’s work account, which Defendant had to forward to his personal email due to lack of a company laptop. The chain also documents subsequent **age-based harassment** (a “dinosaur” image directed at Defendant), evidencing a retaliatory hostile environment

**Exhibit (E) 22 Dec, 2024** – QBE’s Post-Termination Use of Defendant’s Solutions; JIRA logs—the digital paper trail for task ownership, traceability, and collaboration—document remediation strategies for persistent failures in QBE’s Legal NDA platform (originally developed by Accenture). These records confirm QBE continued implementing Defendant’s solutions even after Mphasis terminated him, demonstrating that his work product remained in use. This undercuts any claim of misappropriation or harm and supports Defendant’s assertion that his actions did not impair Mphasis’s competitiveness.

**EXHIBIT (F) Dec 31, 2024** – Equipment Return Coordination and Communication Records;

**EXHIBIT (H) Mar 15, 2025** – **Cease-and-Desist Letter (2 days after Mphasis fired defendant)** issued by Mphasis’s counsel to Defendant. This letter demanded that Defendant take down his whistleblower websites and cease his disclosures. It is evidence of Mphasis’s **retaliatory posture** immediately after Defendant’s protected activity, and it preceded the filing of this lawsuit.

**EXHIBIT (I) Apr 3, 2025:** A second **cease-and-desist or threat letter** from Mphasis (or its counsel) escalating the legal threats against Defendant. This further demonstrates Mphasis’s intent to **silence** Defendant’s whistleblowing through legal pressure, bolstering Defendant’s claims of retaliation under Dodd–Frank and NYLL § 740.

**EXHIBIT (J) Mar 28 - Apr 20, 2024** – Email rejection (“mailer-daemon”) notices showing that Mphasis – and its counsel – **blocked** Defendant’s attempts to escalate concerns via standard email channels

**EXHIBIT (K) Apr. 17 & 20, 2025** – Correspondence from Mphasis’s counsel giving **conflicting instructions**: on April 17, counsel directed Defendant to communicate only through his personal email, but by April 20, that same email was **blocked**, leaving Defendant no avenue to be heard.

**EXHIBIT (L) Mar 28, 2025** – Laptop Return Coordination And Missing Instructions

**Exhibit (M) 29 Apr 2025** – Correspondence Regarding QBE Laptop Return. This exhibit contains email communications between Defendant Albert Rojas, Plaintiff Mphasis, QBE representatives, and Plaintiff’s counsel at Ogletree Deakins, documenting Defendant’s repeated efforts to return a QBE-issued Dell laptop. Despite requests dating back to December 2024, Mphasis and QBE failed to provide a standard FedEx shipping label and return instructions for over five months. Defendant’s communications highlight concerns over the persistent delays, conflicting responses, and irregular asset handling, raising questions regarding compliance failures, audit risks, and potential improper financial practices. Submitted under penalty of perjury, these exchanges are material to Defendant’s whistleblower defenses and requests for targeted financial discovery.

## UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK

Mphasis Corporation, ) Plaintiff, ) ) Case No. 25-cv-3175 v. ) ) Albert Rojas, ) Defendant. )

### ANSWER, AFFIRMATIVE DEFENSES, AND COUNTERCLAIMS

Defendant Albert Rojas ("Defendant"), appearing pro se, respectfully submits this Answer to Plaintiff Mphasis Corporation's ("Mphasis") Complaint dated April 16, 2025, and states as follows:

#### GENERAL DENIAL

Pursuant to Fed. R. Civ. P. 8(b)(3), Defendant denies each and every allegation not specifically admitted herein and demands strict proof thereof.

#### FACTUAL BACKGROUND

##### **Alleged Acceptable Use Policy Violation:**

Defendant repeatedly warned Mphasis (Plaintiff) that accessing Mphasis email systems through QBE's network violated **QBE's Acceptable Use Policy** (Page 10, Section r), which prohibits unauthorized third-party email services for business communication. Defendant did not initiate this insecure configuration; it arose directly from **Mphasis's refusal to provide a company-issued, domain-joined laptop**—a baseline requirement for secure, policy-compliant access [EXHIBIT (B) Oct 31 - Dec 17, 2024 – INFRASTRUCTURE DENIAL AND COMPLIANCE BARRIER].

Forced to choose between breaching QBE's endpoint security controls or using his personal MacBook, Defendant chose the latter. Mphasis's failure to provision proper infrastructure carried consequences: on **November 1, 2024**, QBE's issued laptop for Dilip Nayak suffered a **critical Blue Screen crash**—a classic indicator of **network compromise** due to **cross-domain access** (QBE and Mphasis systems on a shared endpoint) [EXHIBIT (C) Nov 1, 2024]. As a cybersecurity services provider, Mphasis failed to implement basic endpoint segregation, exposing its client to unnecessary risk.

Now, Mphasis seeks to penalize Defendant for operating under **constraints it imposed**. This **selective enforcement of internal policy**, while ignoring its own role in creating these conditions, constitutes **inequitable conduct barred by the doctrine of unclean hands**. See *Precision Instrument Mfg. Co. v. Auto. Maint. Mach. Co.*, 324 U.S. 806, 814 (1945); *Dunlop-McCullen v. Local 1-S, RWDSU-AFL-CIO*, 149 F.3d 85, 90 (2d Cir. 1998).

Further, **Mphasis's own conduct violated client (QBE) protocols**, which prohibited cross-domain access via unsegregated endpoints. Defendant's use of personal equipment was not only

foreseeable—it was necessary to maintain compliance with QBE’s security posture. The alleged violations are a direct consequence of Mphasis’s failure to act equitably, precluding it from relief.

**Retaliation and Whistleblower Protections:**

Defendant’s disclosures regarding these security failures are **protected activity** under the **Defend Trade Secrets Act (18 U.S.C. §1833(b))**, **Sarbanes-Oxley Act (18 U.S.C. §1514A)**, **Dodd-Frank (15 U.S.C. §78u-6(h))**, and **New York Labor Law §740**. Terminating Defendant for these disclosures constitutes **retaliation** and independently bars Plaintiff’s claims.

**Further Evidence of Inequitable Conduct:**

**I. Defendant’s Demonstrated Value and Mphasis’s Retaliation**

In December 2024, Defendant successfully designed and deployed an integrated large language model (LLM) solution for QBE, materially enhancing operational efficiency by reducing document processing time from 35 seconds to under 2 seconds. This achievement—captured in a documented performance demonstration [YouTube link: [www.youtube.com/watch?v=QuIAEmBGEec](https://www.youtube.com/watch?v=QuIAEmBGEec)]—provided measurable value to QBE’s compliance and document management workflows.

Despite this performance milestone, which underscores Defendant’s technical competence and good faith execution of duties, Mphasis discarded his contributions without cause. Instead of recognizing Defendant’s critical work product, Mphasis engaged in retaliatory conduct—including age-based harassment, fabrication of pretextual grounds for termination, and this litigation—targeting Defendant’s protected disclosures and advocacy for compliance integrity.

This LLM deployment serves as further evidence that Plaintiff’s claims of misconduct are meritless and retaliatory. The material benefit to QBE directly contradicts any assertion that Defendant failed to perform or acted outside his role.

Moreover, Mphasis’s termination of Defendant shortly after this achievement, coupled with its failure to acknowledge the positive client impact, exemplifies inequitable conduct and supports Defendant’s claims for retaliatory termination under:

- The Defend Trade Secrets Act (DTSA) §1833(b);
- Sarbanes-Oxley Act (SOX) 18 U.S.C. §1514A;
- Dodd-Frank Act 15 U.S.C. §78u-6(h);
- New York Labor Law (NYLL) §740.

This documented success further bolsters Defendant’s unclean hands defense, demonstrating that Mphasis’s actions were motivated not by any legitimate concerns over misconduct, but by an intent to suppress whistleblowing activity and undermine Defendant’s professional contributions.

**II. Improper Handling Allegations Barred by Plaintiff’s Own Conduct.**

On February 28, 2025, Mphasis management, through Raturaj Waghmode, transmitted confidential QBE materials to Defendant's Mphasis email, which he accessed via personal MacBook due to Mphasis's failure to provide standard corporate hardware. Lacking domain-joined equipment necessary for compliance, Defendant was compelled to forward the QBE.pptx file from his Mphasis email (albert.rojas@mphasis.com) to his personal email (rojas.albert@gmail.com) to complete required work.

Under the doctrine of equitable estoppel (*Kosakow v. New Rochelle Radiology*, 274 F.3d 706, 725 (2d Cir. 2001)) and unclean hands (*Precision Instrument Mfg. Co. v. Auto. Maint. Mach. Co.*, 324 U.S. 806, 814 (1945)), Plaintiff cannot assert violations that it induced through its own failure to provide basic resources. Plaintiff's failure to furnish tools required for compliance negates any assertion of willful misconduct (*Heckler v. Community Health Services*, 467 U.S. 51, 59 (1984)).

### **III. Age-Based Hostility and Retaliatory Termination**

Further compounding this inequitable conduct, despite Defendant's delivery of an 8-page strategic summary on the QBE project, Mphasis discarded the work and escalated hostility. This included age-related remarks questioning Defendant's relevance, culminating on March 7, 2025, when Waghmode displayed dinosaur imagery in a team setting, explicitly targeting Defendant (over 60)—conduct constituting age-based harassment under the Age Discrimination in Employment Act (ADEA) and supporting a hostile work environment claim (*Fraser v. Fiduciary Trust Co. Int'l*, 417 F. Supp. 2d 310, 322 (S.D.N.Y. 2006)).

**Exhibit (D) Feb 28 - Mar 7, 2025** demonstrates that Mphasis management, specifically Raturaj Waghmode, transmitted confidential QBE materials to Defendant's Mphasis email account, which Defendant accessed via his personal MacBook due to Mphasis's failure to provide standard corporate hardware.

Lacking Mphasis-issued equipment necessary to perform his duties, Defendant was compelled to forward the QBE.pptx file from his Mphasis email (albert.rojas@mphasis.com) to his personal email (rojas.albert@gmail.com) solely to complete required work. This operational necessity, caused by Plaintiff's failure to provide basic resources, bars any claim of improper handling under the doctrine of equitable estoppel (*Kosakow v. New Rochelle Radiology*, 274 F.3d 706, 725 (2d Cir. 2001)), as Defendant reasonably relied on the conditions created by Mphasis's own actions.

Moreover, Plaintiff's failure to furnish the tools required for compliance negates assertions of willful misconduct. Under *Heckler v. Community Health Services*, 467 U.S. 51, 59 (1984), a party cannot assert claims against another when its own conduct induced the circumstances it challenges.

Further, despite Defendant delivering an 8-page distilled strategic summary in connection with this QBE project, his work product was discarded without cause. This was followed by age-related remarks questioning his relevance, culminating in overt hostile conduct. On March 7, 2025, Waghmode escalated this behavior by displaying dinosaur imagery in a team setting, explicitly targeting Defendant (over 60)—conduct that constitutes age-based harassment under

the Age Discrimination in Employment Act (ADEA) and supports a hostile work environment claim (see *Fraser v. Fiduciary Trust Co. Int'l*, 417 F. Supp. 2d 310, 322 (S.D.N.Y. 2006)).

Email Chain:

- 10:23 AM – Raturaj Waghmode (raturaj.waghmode@mphasis.com) to Albert Rojas (albert.rojas@mphasis.com): “QBE draft deck” (attachment: QBE.pptx)
- 11:01 AM – Albert Rojas (albert.rojas@mphasis.com) forwarded to rojas.albert@gmail.com: “Fw: QBE draft deck”

This sequence, initiated by Mphasis management, directly undermines Plaintiff’s claims of improper data handling. Defendant acted in good faith and under operational constraints imposed by Plaintiff while also facing discriminatory and hostile treatment in violation of federal law.

#### **IV. Retaliation Following Protected Disclosures**

After Defendant escalated compliance concerns during a formal CRO investigation (March 12–14, 2025), Mphasis retaliated by locking his system access and terminating his employment without meaningful explanation—constituting direct reprisal for protected disclosures.

Mphasis’s post hoc justification—alleging “unauthorized international travel”—was demonstrably false. Defendant had secured documented approval for his self-funded travel and planned London meetings. This fabricated rationale masks retaliatory intent, prohibited under:

- **Defend Trade Secrets Act (DTSA)**, 18 U.S.C. §1833(b);
- **Sarbanes-Oxley Act (SOX)**, 18 U.S.C. §1514A;
- **Dodd-Frank Act**, 15 U.S.C. §78u-6(h);
- **New York Labor Law (NYLL)**, §740.

Such conduct, executed under the guise of compliance, bars Plaintiff’s equitable claims and reinforces Defendant’s counterclaims for retaliatory termination, defamation, and emotional distress. In equity and law, Plaintiff’s hands remain unclean.

#### **V. Conclusion**

In sum, Plaintiff’s claims are not only equitably barred but constitute retaliation for Defendant’s protected activities under federal and state whistleblower statutes. Plaintiff’s conduct—from withholding basic resources to retaliating against compliance reporting—demonstrates a pattern of inequitable conduct that defeats its claims.

In sum, Mphasis’s claims are not only **equitably barred** but constitute **retaliation** for Defendant’s protected activity under multiple statutes. Plaintiff’s hands are unclean.

Sarbanes-Oxley (18 U.S.C. §1514A), Dodd-Frank (15 U.S.C. §78u-6(h)), and New York Labor Law §740.

Such conduct, rooted in bad faith and executed under the guise of compliance, not only bars Plaintiff's equitable claims but further reinforces Defendant's counterclaims for retaliatory termination, defamation, and emotional distress. In equity and law, Plaintiff's hands remain unclean.

In sum, Mphasis's claims are not only **equitably barred** but constitute **retaliation** for Defendant's protected activity under multiple statutes. Plaintiff's hands are unclean.

### **SPECIFIC RESPONSES**

Paragraphs 1–28: Admitted in part. Defendant acknowledges he was hired by Mphasis in October 2024 as a Client Technical Specialist (AI) and completed onboarding forms and cursory training modules. Defendant unequivocally denies ever receiving access to Mphasis's internal systems, including compliance infrastructure, SharePoint policy documents, or governance tools. Mphasis never provided Defendant a domain-joined company laptop, despite multiple formal requests, which made it impossible to comply with the very policies Mphasis accuses him of violating.

#### **I. STRUCTURAL COMPLIANCE FAILURES AND EQUITABLE ESTOPPEL**

Email Correspondence Confirming Mphasis's Structural Compliance Failures, Policy Enforcement Gaps, DLP Inconsistencies, and Grounds for Equitable Estoppel and Whistleblower Protections:

"You can use personal machines, but you will be limited to WEB Version only... **ONLY Mphasis domain-joined machines can use Desktop apps**, which allow downloading and storing of Mphasis data." [EXHIBIT (B) Oct 31 - Dec 17, 2024]

This December 18, 2024 email from Mphasis Senior U.S. Administration Officer Jared Bulger provides unambiguous, self-authenticating proof that Mphasis Corporation failed to provision Defendant Albert Rojas with the standard security infrastructure required to perform his duties in compliance with company policy. This restriction barred Defendant from accessing internal systems, policy documentation, security controls, and compliance infrastructure—all of which form the basis of Plaintiff's claims. Mphasis's directive that Defendant rely on personal equipment, while withholding secure access, structurally prevented compliance and induced operational reliance on deficient conditions.

#### **AFFIRMATIVE DEFENSE: INFRASTRUCTURE DENIAL AND WHISTLEBLOWER RETALIATION**

1. Defendant incorporates by reference the factual background set forth herein, including Exhibits B, as support for this defense.

2. Defendant asserts that Mphasis Corporation, through deliberate policy enforcement failures, denied Defendant the standard security infrastructure necessary to perform his contractual duties in a compliant manner, including access to internal systems, policy documentation, security controls, and compliance tools.
3. Specifically, on October 31, 2024, Mphasis informed Defendant that he would not be issued a corporate laptop because he had been provided a client (QBE) laptop, thereby preventing Defendant from segregating access between client and contractor environments as required under industry-standard endpoint security protocols. This deviation from standard practice is underscored by contemporaneous communications, which confirm that other similarly situated personnel (e.g., Dean Forrest) were issued both QBE and Mphasis laptops.
4. Defendant raised internal concerns regarding this noncompliance, specifically highlighting the security risks and regulatory exposure caused by Mphasis's failure to provide the necessary infrastructure. Defendant was structurally barred from complying with policies he was contractually obligated to uphold.
5. Defendant's internal disclosures constituted protected activity under:
  - New York Labor Law §740 (unlawful retaliation against employees who report violations of law or public policy).
  - Sarbanes-Oxley Act (SOX), 18 U.S.C. § 1514A (protection against retaliation for reporting corporate fraud and violations of SEC regulations).
  - Dodd-Frank Wall Street Reform and Consumer Protection Act, 15 U.S.C. § 78u-6(h) (prohibiting retaliation against whistleblowers reporting violations of securities laws and related risks).
6. Mphasis's retaliatory termination of Defendant in response to these protected disclosures constitutes a violation of the foregoing statutes and supports the affirmative defenses of unclean hands and equitable estoppel. See *Kosakow v. New Rochelle Radiology Assocs., P.C.*, 274 F.3d 706, 720-21 (2d Cir. 2001); *Heckler v. Community Health Servs. of Crawford Cty., Inc.*, 467 U.S. 51, 59 (1984).
7. Plaintiff's misconduct bars recovery under the doctrine of unclean hands. See *Dunlop-McCullen v. Local 1-S*, 149 F.3d 85, 90 (2d Cir. 1998).
8. Retaliatory discharge claims under SOX and Dodd-Frank are supported by Second Circuit precedent. See *Fraser v. Fiduciary Trust Co. Int'l*, 417 F. Supp. 2d 310, 322 (S.D.N.Y. 2006); *Yang v. Navigators Group, Inc.*, 18 F. Supp. 3d 519, 532 (S.D.N.Y. 2014).
9. Mphasis's conduct further triggers estoppel against its claims of trade secret misappropriation and Computer Fraud and Abuse Act (CFAA) violations, as Defendant

was denied compliant access channels. See *Cliffs Notes, Inc. v. Bantam Doubleday Dell Publ'g Group, Inc.*, 886 F.2d 490, 494 (2d Cir. 1989).

10. Defendant's reliance on personal equipment, compelled by Mphasis's infrastructure failures, directly violated QBE Endpoint Security Standards aligned with NIST SP 800-53 and ISO/IEC 27001.
11. Mphasis contravened NIST controls AC-17 (Remote Access), SC-12 (Cryptographic Key Establishment), SI-7 (Integrity Monitoring), and ISO/IEC 27001 Annex A controls A.6.2.1, A.9.2.1, A.13.2.1.
12. These systemic failures undermine Plaintiff's trade secret and CFAA claims. See *United States v. Nosal*, 844 F.3d 1024, 1035-36 (9th Cir. 2016); *Elsevier Inc. v. Doctor Evidence, LLC*, No. 17-cv-5540, 2018 WL 557906 (S.D.N.Y. Jan. 23, 2018).
13. Plaintiff's noncompliance with these controls supports Defendant's affirmative defenses of unclean hands and equitable estoppel. See *Dunlop-McCullen*, 149 F.3d at 90; *Kosakow*, 274 F.3d at 720-21.
14. Furthermore, Mphasis's failure to secure infrastructure and its retaliatory termination following Defendant's protected disclosures violate NYLL §740, SOX, and Dodd-Frank, further reinforcing these defenses.

## II. INCONSISTENT ENFORCEMENT OF DLP PROTOCOLS

This systemic failure is further compounded by Mphasis's inconsistent enforcement of its Data Loss Prevention (DLP) protocols. While Mphasis penalized Defendant for operational workarounds necessitated by lack of access, it permitted senior personnel, including Raturaj Waghmode, to bypass DLP controls and transmit confidential client materials to unsecured personal accounts (see **Exhibit (D) Feb 28 - Mar 7, 2025**). The selective enforcement of DLP policies and the company's own failure to detect or prevent these transfers highlight systemic compliance failures—not misconduct by Defendant.

## III. RETALIATION FOLLOWING PROTECTED DISCLOSURES

Furthermore, when Defendant raised these policy enforcement gaps and DLP failures through internal escalation channels—including the Office of Ethics and Compliance and Whistleblower programs—Mphasis retaliated by blocking his communications, locking his accounts, and terminating his employment. These disclosures, made in good faith and aimed at addressing regulatory noncompliance and security risks, are protected under multiple whistleblower statutes:

- Defend Trade Secrets Act (DTSA) §1833(b)
- Sarbanes-Oxley Act (SOX) 18 U.S.C. §1514A
- Dodd-Frank Act 15 U.S.C. §78u-6(h)

- New York Labor Law (NYLL) §740

Mphasis's retaliatory actions following Defendant's protected disclosures—including blocking communication channels, fabricating pretextual grounds for termination, and pursuing litigation—further defeat Plaintiff's claims and reinforce Defendant's counterclaims for retaliatory termination, defamation, and emotional distress. This exhibit decisively undermines Plaintiff's allegations while reinforcing Defendant's affirmative defenses and statutory protections under federal and state whistleblower laws.

#### Summary and Cross-Reference:

In sum, Mphasis's allegations of breach in Paragraphs 1–28 are not only factually implausible but legally barred. Defendant could not access, review, or violate policies that were structurally inaccessible due to Mphasis's own failure to provide domain-joined hardware or secure system access. Under these conditions, equitable estoppel and unclean hands preclude Plaintiff's claims. **EXHIBIT (B) Oct 31 - Dec 17, 2024** stands as dispositive evidence of this structural failure.

For further evidence of Mphasis's inequitable conduct, selective enforcement of DLP protocols, and retaliatory behavior—including the QBE presentation routing and age-based harassment—see “Further Evidence of Inequitable Conduct,” *infra*.

Paragraphs 29–34: Denied.

#### I. DEFENDANT'S CONTINUED ENGAGEMENT WITH QBE AND ACCENTURE REMEDIATION

Defendant was never placed on "watch" by QBE. On the contrary, QBE actively requested Defendant's continued engagement and sought to operationalize the GenAI software Defendant demonstrated during his October 9, 2024 client interview (See **Exhibit (A) Oct 9, 2024**). The assertion that Defendant improperly supported Accenture is patently false. Defendant was explicitly directed by QBE to remediate Accenture's failed implementation of the Legal NDA decoding pipeline—a critical system that had not met delivery expectations.

Following the termination of Defendant's contract by Dilip Nayak and QBE, the Accenture team continued to leverage Defendant's documented methodologies and solutions to resolve persistent failures in the Legal NDA platform originally developed by Accenture. These deficiencies were comprehensively detailed in internal records, including [Exhibit (E) – December 22, 2024], and corroborated by video evidence capturing systemic execution failures.

#### II. QBE'S ONGOING USE OF DEFENDANT'S WORK PRODUCT

QBE terminated Defendant's engagement, yet proceeded to implement the very solutions Defendant provided to stabilize a failing system. This contradiction is laid bare in internal QBE communications (See Exhibit (E) – December 22, 2024), which reference continued remediation efforts leveraging Defendant's work:

"... Yes, we discussed the issue the last two days and two new Jira have been raised. One of them is going to be resolved by Manjusha and the other will have to be handled by Ishita when she gets back from vacation..."

This record speaks for itself: QBE enlisted Defendant to optimize the broken deliverables from Accenture—that is why Defendant was retained. See **Exhibit (A) Oct 9, 2024** Defendant delivered. And QBE continued to utilize Defendant's intellectual contributions even after severing the contract. See **Exhibit (E) 22 Dec, 2024**

### III. FALSE CLAIMS OF COMPETITOR SUPPORT

Paragraph 32 of Mphasis's complaint—stating that Defendant "sought to solve a problem for an Mphasis competitor"—is demonstrably false. Defendant was solving a problem for QBE, the mutual client. That distinction is critical. The work performed was at the direct request and benefit of QBE, not in service of Accenture.

### IV. REPEATED FAILURE TO PROVIDE COMPANY HARDWARE

Moreover, Mphasis's accusation in Paragraph 35—that Defendant improperly forwarded materials to personal email accounts—conveniently omits that Defendant was never issued an Mphasis laptop. Defendant repeatedly requested appropriate hardware, but was instead instructed to use personal equipment to perform critical project work—a fact confirmed by internal communications, now conspicuously absent from Mphasis's complaint.

Mphasis's legal team is fully aware of these facts. Yet they filed a complaint that deliberately misstates the record, omits key context, and weaponizes protected disclosures as misconduct. This is more than misleading—it is retaliatory, and emblematic of Mphasis's broader pattern of inequitable conduct.

### V. LEGAL DEFENSES AND WHISTLEBLOWER PROTECTIONS

Under the doctrine of unclean hands, such conduct bars Mphasis from seeking equitable relief. Additionally, these retaliatory tactics violate federal whistleblower protections, including:

- Sarbanes-Oxley (SOX) 18 U.S.C. §1514A
- Dodd-Frank Act 15 U.S.C. §78u-6(h)
- New York Labor Law (NYLL) §740

All of which shield individuals from adverse actions in response to protected disclosures regarding compliance failures.

Paragraphs 35–43: Denied.

### I. EMAILS TO PERSONAL ACCOUNTS FOR WHISTLEBLOWER PURPOSES

All information emailed to Defendant's personal accounts was either:

- (a) related to whistleblower concerns, or
- (b) shared in the course of duties while Mphasis refused to provision secure access.

Mphasis's own policies and internal emails confirm that it was impossible to operate via internal tools without Mphasis-provided hardware. No sensitive or proprietary information was disseminated publicly. Defendant's use of personal email accounts was necessitated by Mphasis's operational failures, as established in prior responses (see **EXHIBIT (B) Oct 31 - Dec 17, 2024**).

## II. PROTECTED USE OF WHISTLEBLOWER PUBLICATIONS

Paragraphs 44—83: Denied.

### I. WEBSITES AND EMAIL COMMUNICATIONS RELATED TO PROTECTED DISCLOSURES

The websites mphasis.nyc and mphasis.cloud are protected First Amendment publications maintained as lawful whistleblower disclosures. Defendant did not spoof or impersonate Mphasis executives. The emails in question—sent from “nitin.rakesh@mphasis.it.com”—were not spoofed, nor did they impersonate CEO Rakesh. These communications were authored transparently by Defendant, using that address solely because Mphasis had blocked Defendant's primary email account (rojas.albert@gmail.com) [**EXHIBIT (J) Mar 28 - Apr 20, 2024**], effectively silencing protected disclosures through standard channels. This alternative method was necessary to communicate material compliance concerns. All communications used clearly distinguishable third-party domain names and served solely to preserve evidence and document retaliation. Mphasis's use of the Computer Fraud and Abuse Act (CFAA) and Defend Trade Secrets Act (DTSA) statutes to silence these disclosures is abusive, retaliatory, and explicitly barred under whistleblower protection provisions, including DTSA §1833(b) immunity, Sarbanes-Oxley (SOX) 18 U.S.C. §1514A, and Dodd-Frank 15 U.S.C. §78u-6(h). These statutes shield individuals from adverse actions when reporting compliance failures, regulatory violations, or other legal infractions. Additionally, these disclosures remain protected under the First Amendment.

### II. SPECIFIC RESPONSES TO PARAGRAPHS 68, 69, AND 79

Paragraph 68 alleges that on April 6, 2025, Defendant forwarded the confidential QBE PowerPoint to Grob from a "spoof" email and threatened to go to the media. This characterization is false. The email originated from "nitin.rakesh@mphasis.it.com," openly used by Defendant after Mphasis blocked his primary email [**EXHIBIT (J) Mar 28 - Apr 20, 2024**]. The communication was a good-faith effort to prompt engagement regarding compliance failures, not a threat. The reference to media disclosure falls within the protections of whistleblower statutes, including the DTSA whistleblower immunity provision (18 U.S.C. §1833(b)), Sarbanes-Oxley (18 U.S.C. §1514A), and Dodd-Frank (15 U.S.C. §78u-6(h)).

Paragraph 69 claims Defendant suggested inappropriate relationships and alleged undocumented DLP flags. This is a gross misrepresentation. The referenced email posed rhetorical questions to highlight systemic compliance failures—specifically, why DLP did not trigger when Raturaj

Waghmode sent sensitive QBE materials to Defendant despite his access restrictions. These inquiries were legitimate compliance concerns, framed hypothetically to challenge the plausibility of the DLP failure, not assertions of fact.

Paragraph 79 asserts that mphasis.it.com remains active but omits that the site prominently displays a legal disclaimer outlining its lawful purpose as an evidentiary archive related to ongoing litigation and whistleblower claims. The disclaimer affirms protections under the First Amendment and federal whistleblower statutes, including the DTSA, SOX, and WPEA. This transparency nullifies Plaintiff's claims of impropriety regarding the site.

Collectively, these claims exemplify Mphasis's pattern of retaliatory misrepresentation, further supporting Defendant's defenses of unclean hands and whistleblower immunity.

The websites mphasis.nyc and mphasis.cloud are protected First Amendment publications maintained as lawful whistleblower disclosures. Defendant did not spoof or impersonate Mphasis executives. The emails in question—sent from “nitin.rakesh@mphasis.it.com”—were not spoofed, nor did they impersonate CEO Rakesh. These communications were authored transparently by Defendant, using that address solely because Mphasis had blocked Defendant's primary email account (rojas.albert@gmail.com) [EXHIBIT (J) Mar 28 - Apr 20, 2024], effectively silencing protected disclosures through standard channels.

This alternative method was necessary to communicate material compliance concerns. All communications used clearly distinguishable third-party domain names and served solely to preserve evidence and document retaliation. Mphasis's use of the Computer Fraud and Abuse Act (CFAA) and Defend Trade Secrets Act (DTSA) statutes to silence these disclosures is abusive, retaliatory, and barred under whistleblower protection statutes and the First Amendment.

Paragraph 89: Denied.

#### I. FAILURE TO RETURN CLIENT-ISSUED LAPTOP - FACTUAL MISREPRESENTATION AND EQUITABLE DEFENSES

Mphasis alleges that "as of April 16, 2025, Rojas failed to return his client-issued laptop." This allegation is materially false and grossly incomplete. It omits documented evidence of Defendant's sustained good-faith efforts—across multiple months and continents—to coordinate the return of the QBE-issued laptop. Mphasis and its client, QBE, repeatedly failed to provide a functional return path, then attempted to weaponize their own inaction as the basis for this claim.

Defendant's diligent efforts to return the laptop—including multiple emails (Exhibits F, L)—were frustrated by conflicting responses from Mphasis and QBE. Equity disfavors claims where Plaintiff contributed to the delay (*Kosakow v. New Rochelle Radiology*, 274 F.3d 706, 725 (2d Cir. 2001)). Plaintiff's shifting instructions and failure to facilitate return bar reliance on this issue as a basis for relief.

Since December 2024, Defendant actively sought guidance on returning the device, including through a detailed series of communications with both Mphasis and QBE leadership. Most notably, on March 28, 2025, Defendant emailed QBE sponsor Dilip Nayak and copied senior

personnel at Mphasis, offering to return the laptop and again requesting specific instructions (See **EXHIBIT (L) Mar 28, 2025**). That message followed similar outreach dating back to December 22, 2024, in which Defendant confirmed:

- He never picked up the laptop in person—it was FedExed to his New York apartment.
- He was abroad in France at the time of termination.
- He proposed returning the device through QBE's London office or via prepaid shipping.
- He repeatedly sought return instructions, only to receive ambiguous or contradictory responses.

These emails, now submitted as **EXHIBIT (F) Dec 31, 2024 Dec** and **EXHIBIT (L) Mar 28, 2025**, show that Defendant's efforts were transparent, prompt, and consistent. At every turn, QBE and Mphasis either failed to respond, offered conflicting directions ("drop it off where you picked it up" — when it was never picked up), or deflected responsibility back onto one another.

More troublingly, while Mphasis pursued retaliatory litigation, QBE quietly continued relying on Defendant's intellectual property and deliverables—including the GenAI and Legal NDA remediation work for which he was originally retained—even after termination. This contradiction is vividly illustrated in Exhibit (E) – December 22, 2024 (JIRA tickets), which documents QBE's ongoing implementation of Defendant's solutions. Internal QBE communications confirm:

"... Yes, we discussed the issue the last two days and two new JIRA tickets have been raised. One will be resolved by Manjusha, and the other will have to wait for Ishita's return from vacation..."

These tickets demonstrate that QBE actively leveraged Defendant's methodologies post-termination to stabilize mission-critical systems—while Mphasis simultaneously alleged misconduct. This duality exemplifies the inequitable conduct at the core of Plaintiff's claims.

As shown in the December 17, 2024 [**EXHIBIT (B) Oct 31 - Dec 17, 2024**] – INFRASTRUCTURE DENIAL AND COMPLIANCE BARRIER; Tuesday, December 17, 2024 12:13 PM], QBE personnel such as Dean were issued both QBE and Mphasis laptops—unlike Defendant, who never received an Mphasis laptop despite repeated requests. To avoid violating endpoint security protocols between QBE and Mphasis, Defendant used a personal MacBook to access internal systems. This disparity, raised internally as a compliance concern, was followed by a retaliatory termination—an act in violation of New York Labor Law §740 and now central to the Mphasis v. Rojas lawsuit.

Mphasis cannot assert bad faith or noncompliance when it failed to meet its own obligation to facilitate equipment return—especially when Defendant's travel abroad, lack of a company-issued laptop, and repeated inquiries are plainly documented. To omit these facts while claiming wrongful retention of property constitutes inequitable conduct barred under the doctrine of unclean hands (*Precision Instrument Mfg. Co. v. Auto. Maint. Mach. Co.*, 324 U.S. 806, 814 (1945)).

## II. LEGAL DEFENSES AND WHISTLEBLOWER IMMUNITY

This conduct further supports Defendant's affirmative defenses, including retaliation under:

- Sarbanes-Oxley Act (SOX) 18 U.S.C. §1514A
- Defend Trade Secrets Act (DTSA) 18 U.S.C. §1833(b)
- Dodd-Frank Act 15 U.S.C. §78u-6(h)
- New York Labor Law (NYLL) §740

These statutes protect individuals from adverse actions in response to protected disclosures, including equipment return disputes rooted in compliance failures. Mphasis's complaint mischaracterizes the facts, disregards the record, and misuses the legal process to retaliate against a whistleblower. This claim—like others in the complaint—should be dismissed under the doctrines of unclean hands and statutory whistleblower immunity.

## AFFIRMATIVE DEFENSES

**Failure to State a Claim** Plaintiff fails to allege specific facts showing a violation of the Defend Trade Secrets Act or the Computer Fraud and Abuse Act. No source code, proprietary algorithm, or confidential trade secret was accessed, misused, or disclosed.

**Whistleblower Protection (NYLL § 740)** Defendant was retaliated against for reporting serious compliance gaps, including QBE's internal access policy violations and Mphasis's refusal to provide secure computing access. These disclosures are protected under New York Labor Law.

**Unclean Hands** Mphasis cannot assert contractual violations while simultaneously denying Defendant the very resources (laptop, internal system access) needed to comply. Their misconduct voids enforcement.

**Estoppel and Waiver** Mphasis encouraged and benefited from Defendant's remediation of QBE's failing NDA system—work they now frame as unauthorized. Their delay and silence amount to ratification.

**Failure to State a Claim**

**Whistleblower Protection (NYLL §740)**

**Unclean Hands**

**Estoppel and Waiver**

### **Lack of Informed Consent and Procedural Unconscionability**

Plaintiff's claims for breach of contract, including those under the **Acceptable Use Agreement**, **Non-Disclosure Agreement**, and **Invention Assignment and Non-Solicitation Agreement**, are barred by **procedural unconscionability** and **lack of informed consent**.

At no point during Defendant's employment did Plaintiff provide Defendant with:

- **A domain-joined Mphasis laptop,**
- **VPN credentials, or**
- **Access to Mphasis SharePoint** or other internal repositories where these agreements and policies were maintained.

Defendant's only equipment was a **QBE-issued laptop**, which lacked **access to Mphasis's internal systems**. Defendant's **personal laptop** also could not access these systems due to Mphasis's security architecture.

During onboarding, **Mphasis HR personnel directed Defendant to sign the agreements without review**, citing the inability to access the full policies at that time and assuring that such review could occur later. Defendant was never provided **practical access to these policies**.

The **imbalance in bargaining power**, the **absence of review opportunity**, and the **directives from HR to 'just sign'** constitute **procedural unconscionability** under **New York contract law**.

As a result, these agreements are **unenforceable**, and **Plaintiff's contract-based claims must fail**.

### **Defendant's Good Faith Disclosure Under §1833(b)**

#### **Defendant's Good Faith Disclosure Under §1833(b) and Lack of Legal Counsel**

At all relevant times, Defendant Albert Rojas acted pro se and without the benefit of legal representation. He lacked the financial resources to retain counsel during his employment at Mphasis and after his termination. Despite this, Defendant made every effort to escalate his concerns through appropriate internal and external channels. It was only after Mphasis systematically blocked Defendant's corporate email, personal email, and communications with human resources and legal counsel (see Exhibits J and K), that he created external websites and disclosed materials necessary to establish a factual record.

These actions were not taken for personal gain, public spectacle, or to deceive. Rather, they were the only remaining mechanism available to surface compliance concerns and preserve evidence in anticipation of litigation—protected under the whistleblower immunity provision of the

Defend Trade Secrets Act (18 U.S.C. § 1833(b)). That statute explicitly permits disclosures of trade secret information to an attorney or a government official solely for the purpose of reporting or investigating a suspected violation of law.

In this instance, Defendant's disclosures were confined to (1) supporting the record in response to threats of litigation by Mphasis, (2) asserting statutory whistleblower claims under 18 U.S.C. § 1833(b), 18 U.S.C. § 1514A (Sarbanes-Oxley), and 15 U.S.C. § 78u-6 (Dodd-Frank), and (3) documenting misconduct in a manner accessible to investigators, regulators, and the Court. The creation of domains resembling Mphasis branding was not done with intent to confuse the public or impersonate the company for commercial advantage—it was done solely to bypass artificial blocks (see **EXHIBIT (J) Mar 28 - Apr 20, 2024**) targeting Defendant's name, address, and communications, which were enforced after he first raised concerns.

Plaintiff cannot establish malice or bad faith where it actively disabled Defendant's ability to comply through standard channels, and then penalized him for using the only avenues left. The Court should therefore find Defendant's disclosures protected and immune under §1833(b), and reject any assertion that these efforts were malicious or unauthorized.

### **AFFIRMATIVE DEFENSE: PROTECTED WHISTLEBLOWING AND RETALIATION UNDER SARBANES-OXLEY, DODD-FRANK, AND NEW YORK LABOR LAW §740**

1. Defendant Albert Rojas asserts that **prior to any alleged misconduct** or termination, he engaged in **protected whistleblowing activity** under:
  - **Sarbanes-Oxley Act (18 U.S.C. §1514A),**
  - **Dodd-Frank Wall Street Reform and Consumer Protection Act (15 U.S.C. §78u-6(h)), and**
  - **New York Labor Law §740.**
2. Specifically, Rojas made **good faith internal disclosures** to Mphasis's **risk management, compliance, and human resources teams** regarding:
  - **Policy enforcement failures concerning data security and Data Loss Prevention (DLP) systems, including exemptions for certain employees based on age or religion.**
  - **Potential discrimination and retaliatory practices within client engagements, specifically highlighting risks to client deliverables, compliance obligations, and corporate governance.**
  - **Inconsistent application of cybersecurity protocols, which posed a substantial risk to data integrity, client confidentiality, and regulatory compliance.**

3. These disclosures addressed **potential violations of federal securities laws, corporate fraud, and public safety risks**, all of which are protected under:
  - **Sarbanes-Oxley** (for internal reporting of securities fraud or compliance failures),
  - **Dodd-Frank** (for external reporting or preparation thereof), and
  - **New York Labor Law §740** (for any internal or external reporting related to legal violations or public safety concerns).
4. Defendant asserts that **adverse employment actions**, including:
  - **His termination,**
  - **The withholding of severance,** and
  - **The initiation of this lawsuit,**  
were taken **in direct retaliation** for his **protected disclosures**.
5. Such retaliation constitutes a violation of:
  - **Sarbanes-Oxley §1514A**, which prohibits employer retaliation against employees engaging in protected internal reporting;
  - **Dodd-Frank §78u-6(h)**, which prohibits retaliation for whistleblower activity, including preparations to report externally;
  - **New York Labor Law §740**, which prohibits retaliation for internal or external reports regarding violations of laws affecting public health, safety, or fraud.
6. **Remedies sought** under these statutes include:
  - **Reinstatement** (or front pay),
  - **Backpay** (including **double backpay** under Dodd-Frank),
  - **Compensatory damages** (emotional distress, reputational harm),
  - **Attorney fees and costs,** and
  - Such other relief as this Court deems just.
7. Plaintiff's claims for **trade secret misappropriation, breach of contract, and defamation** are **barred or mitigated** by this **retaliation defense**, as the disclosures made by Defendant were **protected whistleblower activity**.

## COUNTERCLAIMS

**Retaliatory Termination** – NYLL § 740 Mphasis terminated Defendant in bad faith after he raised protected compliance concerns, including unencrypted access to Mphasis portals via third-party networks and misuse of GenAI models.

**Defamation** Mphasis knowingly made false claims in a public court filing, accusing Defendant of impersonation, theft, and misconduct without basis, causing reputational damage and emotional distress.

**Intentional Infliction of Emotional Distress** Mphasis escalated a workplace access issue into a federal lawsuit replete with inflammatory, false allegations, all while denying basic workplace equipment and exposing Defendant to humiliation and job loss.

**Declaratory Judgment** (28 U.S.C. § 2201) Defendant seeks a judicial declaration that mphasis.nyc, mphasis.it.com, and mphasis.cloud are lawful whistleblower sites protected by the First Amendment and NYLL § 740, and do not constitute trademark or trade secret violations.

### **COUNTERCLAIM ONE: RETALIATION IN VIOLATION OF THE SARBANES-OXLEY ACT (18 U.S.C. §1514A)**

*See Yang v. Navigators Grp., Inc.*, 18 F. Supp. 3d 519, 529 (S.D.N.Y. 2014) (holding that a **temporal proximity of less than three months** between internal whistleblowing and termination established a **prima facie case of retaliation under SOX**).

*See also Fraser v. Fiduciary Tr. Co. Int'l*, 417 F. Supp. 2d 310, 322 (S.D.N.Y. 2006) (finding **SOX protections** extend to **internal reporting** of concerns implicating **shareholder fraud or compliance deficiencies**).

Here, like in **Fraser**, Defendant's internal disclosures regarding data security failures and discriminatory practices fall squarely within SOX's protected scope, as they implicated potential fraud and compliance risks to clients like QBE.

Defendant's disclosures further implicated **specific legal violations**, including:

- **General Data Protection Regulation (GDPR)**: Plaintiff's processing of **EU client data**, including **QBE's global operations**, raised concerns under **Articles 5, 25, and 32**, relating to **data security, protection by design, and access governance**.
- **New York SHIELD Act (N.Y. Gen. Bus. Law § 899-bb)**: Defendant reported Plaintiff's failure to implement **reasonable administrative, technical, and physical safeguards** for **New York residents' personal data**, violating the **SHIELD Act's cybersecurity requirements**.

- **California Consumer Privacy Act (CCPA):** For **California-based clients**, Defendant identified **insufficient security measures and transparency obligations** under **CCPA Section 1798.100(b)**.

Defendant also disclosed **discriminatory DLP exemptions based on religion and age**, violating **Title VII of the Civil Rights Act** and the **New York State Human Rights Law (NYSHRL)**.

1. Defendant/Counterclaim Plaintiff **Albert Rojas** repeats and realleges all preceding paragraphs as if fully set forth herein.
2. While employed at **Mphasis Corporation**, Rojas was assigned to high-profile client engagements, including **QBE** and **Charles Schwab**, where he became aware of **systemic failures in data protection, policy enforcement, and risk management**.
3. Specifically, on or about **November 2024**, Rojas raised **internal concerns** with his direct supervisor, **Jitendra Borkar**, and Mphasis's **risk and compliance teams**, regarding:
  - The **exemptions** granted to certain employees in **Data Loss Prevention (DLP) systems**, allegedly based on **age or religion**.
  - The **inconsistent enforcement** of data security policies, which could expose clients like **QBE** to **regulatory noncompliance** or **financial risks**.
4. On **February 28, 2025**, following months of raising these concerns, Rojas was subjected to a **Data Loss Prevention (DLP) incident review** for emailing client deliverables to his **personal email**. These actions were **consistent with prior work practices** and **necessitated** by Mphasis's **failure to provision him with compliant equipment** during international travel.
5. Rather than addressing the **substantive compliance concerns** Rojas raised, Mphasis used this incident as a **pretext to initiate disciplinary proceedings**, effectively silencing the **whistleblower**.
6. Within days of this **DLP incident**, Mphasis:
  - **Locked Rojas's accounts**,
  - **Terminated his employment**, and
  - Issued **cease-and-desist letters** targeting his **protected disclosures**.
7. The **temporal proximity** between Rojas's **protected disclosures** and his **termination** demonstrates **causation** under **Sarbanes-Oxley**.
8. As a direct result of this retaliation, Rojas suffered:
  - **Economic losses** (lost wages, benefits),

- **Emotional distress**, and
  - **Reputational harm**.
9. Pursuant to 18 U.S.C. §1514A(c), Rojas seeks:
- **Reinstatement or front pay**,
  - **Backpay with interest**,
  - **Special damages** (emotional distress, reputational harm),
  - **Attorneys' fees and costs**.

The **temporal proximity** between Defendant's **protected disclosures** (late 2024–early 2025) and Plaintiff's **termination and subsequent lawsuit** supports a **prima facie case of retaliation** under **SOX, Dodd-Frank**, and **NYLL §740** (see *Yang v. Navigators Grp.*, 18 F. Supp. 3d 519, 529 (S.D.N.Y. 2014)).

## **COUNTERCLAIM TWO: RETALIATION IN VIOLATION OF THE DODD-FRANK ACT (15 U.S.C. §78u-6(h))**

10. Rojas repeats and realleges the foregoing paragraphs.
11. During and after his employment, Rojas **prepared documentation** for **external escalation**, including draft exhibits and analyses intended to be shared with regulatory bodies, such as the **SEC** or **DOJ**, regarding:
- **Inadequate internal controls** at Mphasis affecting **financial clients**,
  - Potential **misrepresentations** to clients about **data protection**.
  - **Defendant's regulatory intent included reporting to:**
  - The **Securities and Exchange Commission (SEC)** regarding **investor risk and compliance failures** related to data privacy and cybersecurity,
  - The **Federal Trade Commission (FTC)** and **state attorneys general** (e.g., **New York** and **California**) concerning **GDPR, CCPA, and NY SHIELD Act violations**.

Defendant prepared **analyses and exhibits** to support these reports but was **terminated and subjected to litigation** prior to submission.

This qualifies as **protected activity** under **Dodd-Frank** retaliation provisions (see *Berman v. Neo@Ogilvy LLC*, 801 F.3d 145 (2d Cir. 2015)\*).

12. On **March 15, 2025**, after receiving a **cease-and-desist letter** from Mphasis's legal team, Rojas responded by offering to share these **prepared exhibits for regulatory or legal review**.
13. Instead of addressing these compliance concerns, Mphasis retaliated further by:
  - Pursuing **litigation** against Rojas,
  - Alleging **trade secret misappropriation**, despite his **intended use** of the information for **reporting violations**.
14. This **retaliation** violates **Dodd-Frank** protections for employees **preparing to report violations externally**, even if disclosures are not yet made.
15. Pursuant to **Dodd-Frank**, Rojas seeks:
  - **Reinstatement or front pay**,
  - **Double backpay**,
  - **Attorneys' fees and costs**.

The **temporal proximity** between Defendant's **protected disclosures** (late 2024–early 2025) and Plaintiff's **termination and subsequent lawsuit** supports a **prima facie case of retaliation** under **SOX, Dodd-Frank, and NYLL §740** (see *Yang v. Navigators Grp.*, 18 F. Supp. 3d 519, 529 (S.D.N.Y. 2014)).

### **COUNTERCLAIM THREE: RETALIATION IN VIOLATION OF NEW YORK LABOR LAW §740**

16. Rojas repeats and realleges the foregoing paragraphs.
17. Rojas's internal disclosures regarding **policy failures, discriminatory exemptions, and risk mismanagement** directly implicated **violations of data privacy laws, anti-discrimination statutes, and regulatory frameworks** affecting **public interest**.
18. These disclosures occurred throughout **late 2024 and early 2025**, culminating in **direct communications** with:
  - **Jitendra Borkar** (supervisor),
  - **Shannon Mostafazadeh** (HR partner),
  - **Puran Mehta** (risk/compliance team),
  - **Vinod Kumar** (Chief Risk Office).

19. Shortly after raising these concerns, Mphasis:

- **Terminated Rojas's employment,**
- **Filed suit** against him.

20. This pattern of retaliation violates **New York Labor Law §740**, which protects employees reporting **violations of law or public safety risks**.

21. Rojas seeks remedies under §740, including:

- **Reinstatement,**
- **Backpay,**
- **Compensatory damages for emotional distress and reputational harm,**
- **Attorneys' fees and costs.**

The **temporal proximity** between Defendant's **protected disclosures** (late 2024–early 2025) and Plaintiff's **termination and subsequent lawsuit** supports a **prima facie case of retaliation** under **SOX, Dodd-Frank, and NYLL §740** (*see Yang v. Navigators Grp.*, 18 F. Supp. 3d 519, 529 (S.D.N.Y. 2014)).

#### **COUNTERCLAIM FOUR: DISCRIMINATION BASED ON RACE AND AGE (TITLE VII, ADEA, NYSHRL, NYCHRL)**

1. Defendant Albert Rojas incorporates by reference the allegations set forth in the preceding paragraphs of this Answer, Affirmative Defenses, and Counterclaims.
2. Plaintiff Mphasis Corporation, through its agents and employees, engaged in discriminatory practices against Defendant based on his race (Latino) and age (over 40), in violation of:
  - Title VII of the Civil Rights Act of 1964, 42 U.S.C. § 2000e-2(a);
  - The Age Discrimination in Employment Act (ADEA), 29 U.S.C. § 623(a);
  - The New York State Human Rights Law (NYSHRL), N.Y. Exec. Law § 296;
  - The New York City Human Rights Law (NYCHRL), N.Y.C. Admin. Code § 8-107.
3. Mphasis denied Defendant the standard security infrastructure (including a corporate-issued Mphasis laptop) routinely provided to similarly situated employees, including but not limited to Dean Forrest, who upon information and belief, are younger and not of Defendant's racial background.

4. This denial materially impaired Defendant's ability to perform contractual duties and subjected him to disparate treatment in violation of anti-discrimination laws.
5. Defendant's treatment is consistent with the pattern of discriminatory practices recognized in EEOC enforcement actions, including EEOC v. Bloomberg L.P., 967 F. Supp. 2d 816, 839 (S.D.N.Y. 2013), where the court found that facially neutral policies applied discriminatorily supported a Title VII violation. Similarly, the EEOC's Compliance Manual (Section 15: Race and Color Discrimination) provides that differential treatment in workplace resources and infrastructure may constitute discrimination if similarly situated employees outside the protected class are treated more favorably.
6. Further, under the McDonnell Douglas Corp. v. Green, 411 U.S. 792 (1973) burden-shifting framework, Defendant has established a prima facie case of discrimination: (1) he is a member of protected classes (Latino and over 40); (2) he was qualified for his position; (3) he was denied resources (e.g., Mphasis laptop) provided to similarly situated employees; and (4) these actions resulted in adverse treatment, including termination.
7. Mphasis has failed to provide a legitimate, nondiscriminatory rationale for this deviation in treatment, supporting an inference of discriminatory animus based on race and age.
8. As a direct and proximate result of Mphasis's unlawful conduct, Defendant has suffered economic loss, reputational harm, and emotional distress.

**EXHIBIT (B) Oct 31 - Dec 17, 2024: INFRASTRUCTURE DENIAL AND COMPLIANCE BARRIER**

Mphasis explicitly denied Defendant Albert Rojas a corporate-issued laptop, forcing him to rely on personal equipment while holding him accountable for policies he could not access or comply with. Key correspondence confirms this:

- **October 31, 2024:** Arul A. (Mphasis HR) stated, "Since you already got a client laptop, Mphasis IT team will not provide you an Mphasis laptop."
- **December 18, 2024:** Jared Bulger (Senior U.S. Administration Officer) confirmed: "You can use personal machines, but you will be limited to WEB Version only... **ONLY Mphasis domain-joined machines can use Desktop apps**, which allow downloading and storing of Mphasis data."

These policies left Defendant without access to necessary compliance tools, policy documentation, or secure storage infrastructure, while other similarly situated employees, such as Dean Forrest, were provided both QBE and Mphasis laptops. In a December 17, 2024 exchange:

- Dean Forrest confirmed: "I don't have my Mphasis emails on my QBE machine. I use my Mphasis laptop for that... Yes, I got a Mphasis Laptop and a separate QBE laptop."

These exchanges highlight the disparity in resource allocation. Defendant repeatedly raised these concerns internally, emphasizing the security risks and compliance barriers posed by this setup. Mphasis's refusal to provide equitable infrastructure, followed by retaliatory termination, forms the core of Defendant's claims under New York Labor Law § 740 and federal whistleblower protections.

**Exhibit (E) – December 22, 2024: QBE'S ONGOING USE OF DEFENDANT'S WORK PRODUCT & EVIDENCE OF RETALIATION**  
(See also Section IV.5 of Defendant's Enhanced Whistleblower Defense and Legal Strategy regarding discovery strategy.)

Following Defendant's termination, QBE and Accenture continued relying on Defendant's documented methodologies to remediate persistent failures in the Legal NDA platform originally developed by Accenture. These deficiencies were extensively chronicled through supporting exhibits, including spreadsheets and video demonstrations of execution failures.

Internal QBE communications confirm this ongoing reliance:

"... Yes, we discussed the issue the last two days and two new JIRA tickets have been raised. One will be resolved by Manjusha, and the other will be handled by Ishita upon her return from vacation..."

These communications, alongside QBE's continued implementation of Defendant's solutions post-termination, directly refute Plaintiff's allegations of misconduct and underscore the operational value of Defendant's work.

As outlined in Section IV.5 of Defendant's Enhanced Whistleblower Defense and Legal Strategy, subpoenaing QBE's internal communications and JIRA records will further establish that:

- QBE actively implemented Defendant's solutions post-termination;
- QBE acknowledged Defendant's technical contributions and compliance concerns;
- QBE's compliance exposure arose from Mphasis's systemic policy failures—not Defendant's actions.

This evidence supports that Defendant's termination was retaliatory, intended to suppress protected disclosures, and that Plaintiff's claims lack factual and legal merit.

**EXHIBIT (L) Mar 28, 2025: LAPTOP RETURN COORDINATION AND MISSING INSTRUCTIONS**

Following Defendant's termination, Mphasis's HR offboarding team issued a "No Due Clearance Document" for full and final settlement but failed to provide any instructions for returning the QBE-issued Dell laptop.

Defendant proactively emailed QBE sponsor Dilip Nayak and senior Mphasis personnel to coordinate the return, as confirmed below:

- March 28, 2025: Defendant wrote to Dilip Nayak: "I'm still in Cannes, my friend, and your QBE Dell laptop is just collecting dust in my New York apartment. In hindsight, I should have dropped it off at QBE London. I'll take care of it once I'm back in New York, just drop it off at QBE offices down in the financial district."

Despite Defendant's good-faith efforts, QBE and Mphasis failed to provide clear return logistics, contributing to their unfounded allegations regarding equipment retention.

Plaintiff's failure to provide return instructions, despite Defendant's repeated good faith efforts, renders performance impracticable under contract law (Restatement (Second) of Contracts §261). As such, Plaintiff cannot claim wrongful retention.

WHEREFORE, consistent with the aggregate relief sought in Defendant's Demand for Relief on Counterclaims and Prayer for Relief, Defendant requests the following specific remedies:

- A declaratory judgment that Mphasis's actions, policies, and practices violate Title VII, ADEA, NYSHRL, and NYCHRL;
- An injunction requiring Mphasis to adopt and implement equitable infrastructure provisioning policies that ensure fair treatment regardless of race, age, or other protected characteristics;
- An injunction prohibiting Mphasis from engaging in further discriminatory practices against Defendant or similarly situated employees;
- Reinstatement or front pay, as appropriate;
- Compensatory damages for economic loss, reputational harm, and emotional distress;
- Punitive damages as allowed by law;
- Reasonable attorneys' fees and costs; and
- Any other relief the Court deems just and proper.

**DEMAND FOR RELIEF ON COUNTERCLAIMS: WHEREFORE, Counterclaim Plaintiff Albert Rojas respectfully requests judgment against Mphasis Corporation for:**

- Reinstatement or front pay;
- Backpay (including double backpay under Dodd-Frank);
- Compensatory damages, including for emotional distress and reputational harm;
- Attorneys' fees and costs;
- Pre- and post-judgment interest;

- Any other relief deemed just and proper, including but not limited to the specific relief sought under Counterclaims One through Four.

PRAYER FOR RELIEF: WHEREFORE, Defendant respectfully requests that the Court:

- Dismiss Plaintiff's Complaint in its entirety with prejudice;
- Enter judgment for Defendant on all Counterclaims;
- Award compensatory and punitive damages;
- Reinstate Defendant or grant an equivalent equitable remedy under NYLL § 740;
- Declare the websites in question lawful and protected speech;
- Award attorneys' fees and costs, if counsel is retained;
- Grant such other and further relief as the Court deems just.

The **temporal proximity** between Defendant's **protected disclosures** (late 2024–early 2025) and Plaintiff's **termination and subsequent lawsuit** supports a **prima facie case of retaliation** under **SOX, Dodd-Frank, and NYLL §740** (*see Yang v. Navigators Grp.*, 18 F. Supp. 3d 519, 529 (S.D.N.Y. 2014)).

Respectfully submitted, Albert Rojas (pro se) 319 West 18th Street, 3F New York, NY 10011  
[rojas.albert@gmail.com] [646-866-1669] Dated: April 22, 2025

Albert Rojas (signature)

## UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK

Mphasis Corporation, ) Plaintiff, ) ) Case No. 25-cv-3175 v. ) ) Albert Rojas, ) Defendant. )

### ENHANCED WHISTLEBLOWER DEFENSE, TRADEMARK RESPONSE, AND COUNTERCLAIMS

Defendant Albert Rojas ("Defendant"), appearing pro se, respectfully supplements his Answer to Plaintiff Mphasis Corporation's ("Mphasis") Complaint dated April 16, 2025, with the following enhanced argument addressing whistleblower protections, refuting trademark infringement claims, and asserting counterclaims:

*See Heckler v. Cmty. Health Servs. of Crawford Cty., Inc.*, 467 U.S. 51, 59 (1984) (equitable estoppel applies where one party's conduct **induces reliance** to the other party's **detriment**).

*See also Kosakow v. New Rochelle Radiology Assocs.*, 274 F.3d 706, 725 (2d Cir. 2001) (applying equitable estoppel to prevent a party from asserting a right where **misleading conduct** caused reliance).

As in **Kosakow**, where misleading conduct estopped a party from enforcing strict compliance, Mphasis's directive that Defendant use personal devices—and subsequent blocking of his emails—created reliance and detriment, barring them from now asserting those same policies against him.

#### I. WHISTLEBLOWER PROTECTION UNDER NYLL § 740 AND THE FIRST AMENDMENT

1. Defendant's creation of the websites *mphasis.nyc*, *mphasis.it.com*, and *mphasis.cloud* constitutes protected whistleblower activity under New York Labor Law § 740 and the First Amendment to the United States Constitution.
2. These websites were noncommercial, intended solely for public-interest disclosure, and contained clear disclaimers, including:

"This is not an official Mphasis site. This site contains protected disclosures made pursuant to NYLL § 740 and other applicable laws. All information shared is for documentation, research, and public accountability."

3. Defendant launched these sites only after Mphasis terminated his employment and ignored his multiple internal escalations, including formal complaints to the Ethics and Compliance Office and Whistleblower channels, regarding serious governance and security failures.

4. Defendant's disclosures included: a. Mphasis's failure to provide domain-joined laptops, thereby preventing secure access to compliance systems. b. Retaliatory termination after Defendant raised concerns about unencrypted access to Mphasis portals and misuse of GenAI models. c. QBE's internal access policy violations, exposing Mphasis and client systems to third-party risks.
5. Plaintiff's deliberate obstruction of Defendant's lawful attempts to disclose material compliance concerns bars its claims under the doctrines of unclean hands and equitable estoppel. After Defendant raised credible issues regarding security failures and discriminatory practices, Mphasis employees and legal counsel systematically blocked his corporate email access, as confirmed by multiple rejection notices (see Exhibits J and K). Such calculated interference constitutes unclean hands, disqualifying Plaintiff from equitable relief. See *Precision Instrument Mfg. Co. v. Auto. Maint. Mach. Co.*, 324 U.S. 806, 814 (1945) (“[He] who comes into equity must come with clean hands.”).

Faced with this obstruction, Defendant had no reasonable avenue to report internal misconduct except by escalating disclosures directly to Mphasis CEO Nitin Rakesh through mimicked domains—a method necessitated solely by Plaintiff's intentional suppression of standard communication channels. This escalation is protected under the Defend Trade Secrets Act (DTSA), 18 U.S.C. § 1833(b), which provides immunity for individuals disclosing trade secrets when reporting violations of law to supervisors or in legal proceedings.

Further, Defendant's actions are shielded by the anti-retaliation provisions of both the Sarbanes-Oxley Act, 18 U.S.C. § 1514A (prohibiting retaliation against employees for reporting fraud or violations of SEC rules), and the Dodd-Frank Act, 15 U.S.C. § 78u-6(h) (protecting whistleblowers who provide information regarding violations of securities laws or regulations). Plaintiff's retaliatory conduct—including email suppression and termination—constitutes clear violations of these statutes, further barring their claims.

Moreover, Plaintiff's counsel, Kimberly R. Karseboom, explicitly stated on April 17, 2025, that she would communicate solely through Defendant's personal email (rojas.albert@gmail.com), yet by April 20, 2025, Plaintiff blocked that very address. See Exhibit (K). This manipulation invokes equitable estoppel, preventing Plaintiff from asserting misconduct where it induced Defendant's reliance and then obstructed his compliance efforts. See *Heckler v. Cmty. Health Servs. of Crawford Cty., Inc.*, 467 U.S. 51, 59 (1984).

Plaintiff's suppression of internal reporting mechanisms, compounded by its discriminatory practices, justified and necessitated Defendant's alternative communications. To frame these as malicious disregards statutory whistleblower protections and rewards Plaintiff's wrongful conduct.

6. Under NYLL § 740, Defendant's reporting of these compliance gaps constitutes protected activity. Mphasis's termination of Defendant and subsequent lawsuit represent retaliatory acts prohibited by law.

## II. TRADEMARK USE IS PROTECTED FAIR USE AND PARODY

*See Rogers v. Grimaldi*, 875 F.2d 994, 999 (2d Cir. 1989) (**Second Circuit** standard that protects artistic or expressive works using trademarks, provided the use is **not explicitly misleading**).

*See also Cliffs Notes, Inc. v. Bantam Doubleday Dell Pub. Grp., Inc.*, 886 F.2d 490, 495 (2d Cir. 1989) (recognizing **parody protections** even where trademarks are used, because parody is inherently a form of commentary and critique).

Similarly, Defendant's use of Mphasis's name in whistleblower websites—clearly critical and noncommercial—is akin to the protected parody in **Cliffs Notes**, reinforcing that these disclosures are lawful expressions under **Second Circuit** precedent.

7. Plaintiff's claims of trademark infringement are without merit. The use of the "Mphasis" name and logo on Defendant's websites qualifies as nominative fair use and parody, as established in *Rogers v. Grimaldi*, 875 F.2d 994 (2d Cir. 1989).
8. The sites did not operate commercially, did not offer competing services, and contained clear disclaimers negating any likelihood of confusion.
9. Defendant's use of alternative domain names (e.g., mphasis.cloud) served solely to document whistleblower concerns, not to mislead or impersonate. The content was critical of Mphasis and made no attempt to pass off as the official company.
10. Defendant further contends that: a. The domains were voluntarily taken offline after Plaintiff's request. b. The emails sent from parody domains were contextually obvious critiques and did not constitute spoofing under federal law. c. Defendant has preserved evidence to prove that these disclosures were factual and necessary for public accountability.

## III. COUNTERCLAIMS

11. Retaliatory Termination – NYLL § 740: Mphasis terminated Defendant in bad faith after he raised protected compliance concerns, including unencrypted access to Mphasis portals via third-party networks and misuse of GenAI models.
12. Defamation: Mphasis knowingly made false claims in a public court filing, accusing Defendant of impersonation, theft, and misconduct without basis, causing reputational damage and emotional distress.
13. Intentional Infliction of Emotional Distress: Mphasis escalated a workplace access issue into a federal lawsuit replete with inflammatory, false allegations, all while denying basic workplace equipment and exposing Defendant to humiliation and job loss.
14. Declaratory Judgment (28 U.S.C. § 2201): Defendant seeks a judicial declaration that mphasis.nyc, mphasis.it.com, and mphasis.cloud are lawful whistleblower sites protected

by the First Amendment and NYLL § 740, and do not constitute trademark or trade secret violations.

#### V. PRAYER FOR RELIEF

WHEREFORE, Defendant respectfully requests that the Court:

1. Dismiss Plaintiff's Complaint in its entirety with prejudice;
2. Enter judgment for Defendant on all Counterclaims;
3. Award compensatory and punitive damages;
4. Reinstate Defendant or grant an equivalent equitable remedy under NYLL § 740;
5. Declare the websites in question lawful and protected speech;
6. Award attorneys' fees and costs, if counsel is retained;
7. Grant such other and further relief as the Court deems just.

Respectfully submitted,

Albert Rojas (pro se) 319 West 18th Street, 3F New York, NY 10011 [rojas.albert@gmail.com]  
[646-866-1669] Dated: April 22, 2025

Dear Dilip and Koustav,

It was a pleasure meeting you virtually and sharing stories. Your GenAI project aligns closely with my experience addressing 10-K/OFAC compliance and data policy NIST and ISO risk postures for top global enterprises. I appreciate the chance to discuss my recent AI Health work in decoding clinical language with GenAI and hybrid search embeddings. I'm both excited and humbled to join your team.

Sincerely,  
AI Rojas

## **EXHIBIT (B): Oct 31 – Dec 17, 2024**

### **INFRASTRUCTURE DENIAL & SYSTEMIC COMPLIANCE FAILURE**

#### **Description:**

Mphasis deliberately denied Defendant Albert Rojas access to critical infrastructure—a corporate-issued laptop—compromising his ability to comply with both Mphasis and client (QBE) security protocols. Despite being held accountable for policies and data handling standards, Defendant was forced to rely on personal equipment, exposing sensitive information to unnecessary risk.

This infrastructure denial directly impeded Defendant’s compliance, violating core principles of data protection enshrined in public regulations such as GDPR, CCPA, and NY SHIELD Act. This is precisely how public trust is undermined, and protected data becomes vulnerable—through unmitigated “trap doors” like this, where secure infrastructure is withheld while employees are still expected to handle sensitive data.

#### **Key Correspondence:**

- Oct 31, 2024: Arul A. (Mphasis HR) states, “Since you already got a client laptop, Mphasis IT team will not provide you an Mphasis laptop.”
- Dec 18, 2024: Jared Bulger (Mphasis Senior U.S. Administration Officer) confirms, “You can use personal machines, but you will be limited to WEB Version only... ONLY Mphasis domain-joined machines can use Desktop apps, which allow downloading and storing of Mphasis data.”

Despite being expected to handle sensitive Mphasis data, Defendant was denied the tools required to do so securely. Other similarly situated employees (e.g., Dean Forrest) were provided both QBE and Mphasis laptops, as evidenced in Forrest’s admission on Dec 17, 2024: “I use my Mphasis laptop for [Mphasis emails]... Yes, I got a Mphasis Laptop and a separate QBE laptop.”

This disparity in resource allocation—forcing Defendant to operate without essential compliance infrastructure—constitutes a systemic compliance barrier. Defendant flagged these risks internally, elevating them to Mphasis’s Office of Ethics, Compliance, and Whistleblower channels. These disclosures were protected under New York Labor Law §740, Sarbanes-Oxley, Dodd-Frank, and Defend Trade Secrets Act (DTSA) whistleblower provisions.

The denial of infrastructure and subsequent retaliatory termination for raising these issues form the nucleus of Defendant’s whistleblower retaliation claims. Beyond internal policy violations, these failures expose broader systemic risks—demonstrating precisely how regulatory frameworks designed to protect public data (e.g., under GDPR, CCPA, NY SHIELD) are breached. If left unchecked, such failures open the door to public harm, the very outcome whistleblower statutes seek to prevent.

This conduct supports Defendant's affirmative defenses (including unclean hands and equitable estoppel) and counterclaims for retaliatory termination, as codified under federal and state whistleblower laws.

Hi Team,

I hope you're doing well. I'm unable to access Mphasis emails from QBE. I previously submitted a request for an Mphasis laptop while using my personal Mac, which I no longer have. Could you please arrange for the same setup as Dean? Please refer to his note below for details.

**I would appreciate an update on the status of the Mphasis laptop when you have a chance. Thank you!**

Best regards,

Al Rojas

[December 17, 2024 Dean Forest]

- Defendant 11:52am: Do you have a QBE laptop???
- **Dean Forest 11:52am: Yes**
- Defendant 11:52am: how do you access Mphasis emails from QBE laptop without downloading the Microsoft authenticator?
- **Dean Forest 11:52am: I don't have my Mphasis emails on my QBE machine. I use my Mphasis laptop for it.**
- Defendant Copy
- **Dean Forest 11:53am: I can access my Datalytx emails from my phone etc but Mphasis stuff strictly my Mphasis machine. Which is annoying but I've learned to live with having 2 laptops open most days.**
- Defendant 11:53am: so you got a Mphasis Laptop and a separate QBE laptop correct?
- **Dean Forest 11:54am: Yes My QBE laptop has applications which are native to this machine so even if I long via QRED (VCS session) using my Mphasis laptop I cannot access tools I need just basic stuff like microsoft office.**
- Defendant 11:53am: Copy Exactly! Thank you!
- Dean Forest 11:55 AM: no problem

Subject: RE: Connect: QBE Feedback/ Ways of Working

Hi Al, Shannon,

Thanks for your time on the call earlier. I have summarised key points:

1. QBE Client Feedback – Conveyed feedback received from QBE. Whilst recommendations from AI are welcome, the design decisions by the client need to be followed for further delivery. Also any code to be reused from AI's personal company needs to be agreed with both QBE and Mphasis. Jitendra and Mirza would be the first point of contact for this.

<<Copy>>

2. QBE Account Contact – The QBE account contacts are Mirza Ali (Global Client Partner – responsible for relationships and new business) and Jitendra Borkar (Delivery). Any QBE account updates related to potential opportunities, working with competitors of Mphasis, or current delivery to be flagged to them. They will take it further based on discussions with QBE stakeholders

<<Copy>>

3. Security Policy – The current working arrangement and usage of QBE laptops is common across all onshore team members. We appreciate you shared your security concerns about QBE, but it is now at the discretion of QBE whether they would like to take it forward.

<<google.com/search?q=Third-party+webportal+breaches+2024>>

Personal laptops are not to be used for accessing Mphasis email or applications. If AI would prefer a separate Mphasis laptop, that should be requested via the process advised earlier.

<<Could you please share the process for requesting an Mphasis laptop?>>

4. Travel to London/Morocco – The talk in Morocco is in AI's personal capacity. AI confirmed he is working in the week commencing 25th

Nov (in

London) and 2nd

Dec (in Morocco). Only 4th

Dec will be taken as Annual Leave <<Absence Request Approval>>

. AI has informed Dilip on this<<I'll be working in New York on Monday, Nov 25, and taking a red-eye flight to London. I'll be at the QBE offices starting Tuesday, Nov 26>>

Subject: Fw: [UPDATE Connect: QBE Feedback] FW: QBE Status - Search Index Exception

**Dear Office of Ethics and Compliance and Whistleblower Team,**

I hope this message finds you well.

Driving AI/ML Innovation for QBE

I am honored to support Mphasis and our client QBE with the technology I developed, as highlighted in The Good, Section 2 in my

email below Sent: Wednesday, November 20, 2024 11:32 PM. However, I want to formally note that the technology QBE is seeking to provision is not Open Source. I would greatly appreciate any insights or guidance regarding this matter.

**Policy Compliance Reminder**

During my first week of employment, our QBE sponsor's laptop crashed. This highlighted a critical concern: QBE's network should be further secured to prevent third-party access to their portals from inside QBE network. Security policies vary between organizations, and in the event of a breach, government audits of HTTPs connections are likely. To ensure compliance and mitigate risk, I access the Mphasis portal exclusively from my personal Mac until Mphasis provides a company-issued laptop.

I am humbled and grateful to be part of Mphasis and to contribute to QBE's initiatives. I look forward to your advisement on these matters.

Sincerely,  
Al Rojas

Subject: Re: [UPDATE Connect: QBE Feedback] FW: QBE Status - Search Index Exception

I wanted to share some highlights and an important observation ahead of our 2 PM Connect: BE Feedback/Ways of Working session.

The Good

**1. Streamlining Gen AI Onboarding:**

I successfully presented and guiding the QBE team to replace the multi-page "Gen AI Onboarding document.docx" and its manual, multi-SNOW request process with the **Enterprise Infra Assistant (EIA)** chat service. Please find the details in the attached file:

*"[External] FW\_ Replace GenAI Onboarding Document with EIA Chat - Albert Rojas - Outlook.pdf"*

**2. Driving AI/ML Innovation for QBE:**

Today, Dilip initiated collaboration with QBE Scotland (Stuart Melrose, Hybrid Cloud Engineering) to provision an Azure compute engine to host **OFAC.ai**, a platform I created to accelerate and transform AI/ML capabilities for global financial enterprises.

OFAC.ai ensures customers are not engaged in sanctioned activities.

Dilip expressed interest in applying this platform to insurance language processing.

Siddharth S. and Suyog Prabhu are aware of both OFAC.ai and NIST.ai, as well as our new sales colleague, Mike Meyer.

The Not So Good

Policy Compliance Reminder: Accessing Mphasis email on QBE's network violates the QBE Group Acceptable Use Policy (Page 10, Section r). The policy explicitly states:

"Use unauthorized third-party email services for exchanging business-related messages and information. Only the QBE-provided email system or other approved transmission tools may be used for transmitting information and files relevant to QBE's business."

For reference, I've attached an excerpt (QBE Group Acceptable Use Policy p10, r.png) and linked the full document [here](#).

This isn't just a concern for Mphasis; QBE should consider strengthening its network security against third-party entities like Accenture or others, as any organization would.

**Sent:** Fri, Nov 1, 2024 at 9:40 PM

Copy that. During a live Zoom session (about 30 minutes ago) with Dilip, his laptop encountered a **blue screen error** and crashed. In my view, it would be prudent for QBE to tighten security policies. Contractors should not be accessing employee portals through QBE-issued laptops and web sessions, even if a network configuration oversight left this access open. In the event of a breach, QBE and regulatory bodies will likely audit all access logs, including web sessions.

Attached is a photo taken with my iPhone during my session with Dilip.

Respectfully, Albert

## **EXHIBIT (C) Nov 1, 2024 - QBE sponsor's laptop crashed**

**Description:**

Evidence showing how equipment failures within QBE further necessitated Defendant's compliance-related disclosures.

**A R <rojas.albert@gmail.com>**

**Re: [Mphasis WVDI] QBE & Mphasis emails**

**Albert Rojas <albert.rojas@mphasis.com> To: Arul A <Arul.A@mphasis.com>, Jitendra Borkar <Jitendra.Borkar@mphasis.com>**

**Fri, Nov 1, 2024 at 9:40 PM**

Copy that. During a live Zoom session (about 30 minutes ago) with Dilip, his laptop encountered a **blue screen error** and crashed. In my view, it would be prudent for QBE to tighten security policies. Contractors should not be accessing employee portals through QBE-issued laptops and web sessions, even if a network configuration oversight left this access open. In the event of a breach, QBE and regulatory bodies will likely audit all access logs, including web sessions. Attached is a photo taken with my iphone during my session with Dilip.

Respectfully, Albert

## **Exhibit (D) Feb 28 - Mar 7, 2025 – Mphasis-Induced Disclosure and Age-Based Hostility**

Description: This exhibit illustrates that Plaintiff Mphasis Ltd., through its agent Raturaj Waghmode, transmitted confidential QBE materials to Defendant's Mphasis-issued email account (albert.rojas@mphasis.com). Due to Mphasis's systemic failure to provide Defendant with standard corporate hardware—despite repeated requests—Defendant accessed these materials via his personal MacBook. This operational deficiency, created solely by Plaintiff, necessitated Defendant's forwarding of the QBE.pptx file to his personal email (rojas.albert@gmail.com) to perform his assigned duties.

This necessity, induced by Mphasis's own failure to furnish essential tools, estops Plaintiff from alleging misconduct regarding the handling of this file. Under the doctrine of equitable estoppel, as established in *Kosakow v. New Rochelle Radiology*, 274 F.3d 706, 725 (2d Cir. 2001), a party may not assert a claim where the opposing party reasonably relied on the conditions created by the claimant's conduct. Here, Defendant's reliance was reasonable and foreseeable, as Plaintiff placed him in a position where no alternative means to complete his assignments were available.

Moreover, as established in *Heckler v. Community Health Services*, 467 U.S. 51, 59 (1984), a party cannot claim injury from circumstances that its own conduct induced. Mphasis's operational failures directly led to the file forwarding at issue. Defendant acted in good faith under these imposed constraints.

**Discriminatory Conduct and Hostile Work Environment:** Beyond operational failures, Mphasis further targeted Defendant with discriminatory and hostile conduct, in violation of the Age Discrimination in Employment Act (ADEA), Title VII, and related statutes. Despite Defendant producing an 8-page strategic summary for the QBE engagement, his work was summarily dismissed without justification. This professional marginalization was compounded by age-based disparagement.

Specifically, on March 7, 2025, Waghmode escalated hostile behavior by displaying dinosaur imagery during a team session—a clear reference to Defendant's age (over 60). Courts have consistently recognized that age-related remarks, coupled with adverse employment actions, support claims of a hostile work environment and age discrimination. See *Fraser v. Fiduciary Trust Co. Int'l*, 417 F. Supp. 2d 310, 322 (S.D.N.Y. 2006) (finding that "even stray remarks" may be probative of discrimination when tied to adverse treatment).

Such conduct violates not only the ADEA but also the New York State Human Rights Law (NYSHRL) and New York City Human Rights Law (NYCHRL), which impose broader standards for hostile work environment claims. Plaintiff's conduct was neither isolated nor trivial—it reflected a sustained pattern of age-based marginalization and hostility.

### **Timeline of Key Events:**

- 10:23 AM – Raturaj Waghmode sends "QBE draft deck" to Defendant's Mphasis email.

- 11:01 AM – Defendant forwards the deck to his personal email to perform assigned tasks on non-issued equipment.
- Subsequent days – Defendant delivers significant strategic contributions, which Plaintiff disregards.
- March 7, 2025 – Waghmode displays dinosaur imagery during a team session, mocking Defendant’s age.

Conclusion:

This **Exhibit (D) Feb 28 - Mar 7, 2025** is emblematic of the broader inequitable conduct at the core of Plaintiff’s claims. Plaintiff Mphasis Corporation, through its own agent, initiated the transmission of confidential QBE materials to Defendant’s Mphasis account, fully aware that Defendant lacked corporate-issued infrastructure to securely process such materials. The necessity for Defendant to forward the QBE.pptx file to his personal account arose solely from Plaintiff’s operational failures, barring any claims of misconduct under the doctrines of equitable estoppel (*Kosakow v. New Rochelle Radiology*, 274 F.3d 706, 725 (2d Cir. 2001)) and unclean hands (*Precision Instrument Mfg. Co. v. Auto. Maint. Mach. Co.*, 324 U.S. 806, 814 (1945)).

Further, Plaintiff’s escalation of hostile behavior—including the targeted display of dinosaur imagery in a professional setting—constitutes unlawful age-based harassment under the ADEA and substantiates Defendant’s counterclaims for a hostile work environment (*Fraser v. Fiduciary Trust Co. Int’l*, 417 F. Supp. 2d 310, 322 (S.D.N.Y. 2006)). This conduct not only supports Defendant’s age discrimination counterclaims under the ADEA, NYSHRL, and NYCHRL, but also demonstrates the retaliatory animus fueling Plaintiff’s baseless allegations.

In alignment with Defendant’s integrated legal defenses and counterclaims (**MOTION RESPONSE 9**), including statutory whistleblower protections (DTSA §1833(b), SOX §1514A, Dodd-Frank §78u-6(h), and NYLL §740), this exhibit directly reinforces the following relief requests:

- Dismissal of Plaintiff’s DTSA and CFAA claims under statutory immunity and equitable estoppel.
- Entry of judgment for Defendant on counterclaims for retaliatory termination, discrimination, and emotional distress.
- Declaratory relief confirming Defendant’s disclosures and evidentiary websites are protected under whistleblower laws and the First Amendment.
- An order compelling discovery into Mphasis’s discriminatory provisioning, DLP inconsistencies, and QBE’s post-termination reliance on Defendant’s solutions, as outlined in Section IV of Motion Response 9.

Accordingly, **Exhibit (D) Feb 28 - Mar 7, 2025** substantiates Defendant’s position that Plaintiff’s claims are not only barred in law and equity but were manufactured in bad faith to

retaliate against protected disclosures. Defendant respectfully requests that the Court grant all relief enumerated in the Prayer for Relief of Motion Response 9.

**Friday 17:33 Raturai Waghmode**

Hey

**Friday 17:33 Defendant**

Hey

**Friday 17:33 Raturai Waghmode**

I put George's and a co-pilot version of the decks here Discovery engagement proposal see if you can access and create one which blends these 2 + Lucid pitch

**Friday 17:34 Defendant**

Copy...

**Friday 18:02 Defendant**

still the wrong slide. I even tried opening it in incognito mode to rule out any caching issues. you want your "QBE - George version" 2nd slide to look like this:

**Friday 18:14 Raturai Waghmode**

Create your own

I don't like much of G slides

While possibly intended as a joke, Raturaj shared images of dinosaurs during a screen-sharing session, which, given the context, seemed inappropriate and possibly ageist. This act appeared hostile and age-related, as I am over 50.

Leverage

Lucid flow

**Friday 18:16 Defendant**

Copy

**Friday 21:37 Raturai Waghmode**

Where you able to draft a better version?

While possibly intended as a joke, Raturaj shared images of dinosaurs during a screen-sharing session, which, given the context, seemed inappropriate and possibly ageist. This act appeared hostile and age-related, as I am over 50.

**Friday 21:45 Defendant**

Of course-it's an art. I played a key role in building Oracle HQ's first CC recommendation engine (inverted index of incident histories) in redwood shores, where prompt return similar incidents during interactive sessions. I'm confident we can walk away from the meeting with a two-week paid engagement to establish a baseline and provide our recommendations.

**Friday 22:36 Raturai Waghmode**

Looking for the uplifted deck version if you have one

**Friday 21:46 Defendant**

Like I said, it's an art. I'll have it ready first thing Monday. I'd love to present this to QBE because I enjoy showing QBE that we know how to make all the moving parts work, especially AI-driven enhancements that ensure users always have the latest data during interactive CC sessions.

**Saturday 14:34 Defendant**

Open this using the 'Your Browser' option to activate the hyperlinks, especially on slide 5. I assume there's awareness that QBE is facing Contact Center challenges. This presentation has two key objectives

1. Mphasis understands how to make the moving parts work
2. As Sales Consultants, we are here to help

Stil WIP...

The PPT, But the href links will not work unless you can download the PPT to your desktop. Still WIP lol

**Saturday 14:44 Raturai Waghmode**

You've gone a few steps ahead AI

What we need for now is a 2-3 weeks workshop to collect data on call volumes, ops processes and tech stack

This proposal should come after this discovery

Right now we don't know enough to make it specific to QBE

**Saturday 14:51 Defendant**

Copy. This is a request for a two-week paid engagement to gather QBE Contact Center stats, conduct a review, a

sent our recommendations-great! The AI demo on slide 5 was just a quick showcase to demonstrate that v

understand how to make the moving parts work. We're here to help!

Even if we don't win this business, I'm confident the QBE team will reach out for the next opportunity because they'll

know we have the expertise to make everything run smoothly.

QBE is likely already collecting machine data (call volumes, operational processes). Our task will be to aggregate and leverage that data to optimize their contact center.

**Saturday 14:57 Raturai Waghmode**

Unsure about what data they have

Leverage the Lucid slides

**Saturday 14:58 Defendant**

Great! That's exactly what I want QBE to realize. Collecting data is easy-it's how you use it that matters. At Mphasis, we're experts in not just gathering machine data but turning it into actionable insights. Had QBE done this, they wouldn't be facing their current contact center challenges.

(Raturaj Waghmode 01/03/2025, 14:57 Unsure about what data they have) That's what the 2-week paid engagement is for.

(Raturaj Waghmode 01/03/2025, 14:57 Leverage the Lucid slides) I can, but if this is a Discovery meeting, those Lucid slides are more suited for the We're Already Married meeting-where we're figuring out how to move in together. Just saying boss.

**Saturday 15:04 Raturai Waghmode**

May be use the first few slides

**Saturday 15:20 Defendant**

If we're planning to present this at the QBE offices in London next week, I'd love to be there. I can meet you the next time you're in New York. As for presenting the Lucid slides, you already have them. I know the team at QBE—most likely, they won't understand the Lucid slides because if they did, they would have already taken action. Please let me know your thoughts, and I can coordinate with George in London next week.

**Saturday 15:45 Raturai Waghmode**

This stakeholder is in Sydney

**Saturday 16:39 Defendant**

At the Sydney office or Teams?

If Teams, I would love to listen in. See you Tuesday in NY unless I hear otherwise.

Anna and I were working at the hotel and she invited me to her Paris show on March 6. I really think I should attend—it'll be a great net working opportunity for Mphasis . You know I love hunting for business, and the tech side comes naturally to me. I've been coding longer than anyone you have at Mphasis. I promise I'll fly back to New York right after the show. Let me know your thoughts.

One more point:

If we're uncertain about their data, that's even more reason to hold off on presenting the Lucid slides for now, sir. The two-week engagement may reveal that the CC software is functioning perfectly and that the issue lies in how QBE is using it—just like what happened with LLMs decoding NDAs. The LLM performed as designed; the problem was in how QBE was using it. Respectfully,  
Albert

**Monday 21:56 Raturai Waghmode**

I created this QBE proposal deck Discover workshop proposal for QBE CCaaS transformation 2025.03.03.pptx

**Monday 22:20 Defendant**

The proposal deck includes Lucid (slide 9). I was under the impression we were aiming for a two-week paid engagement — can you confirm?

Safe travels

Best,

Albert

**Monday 22:23 Raturai Waghmode**

Please fix

**Monday 22:24 Defendant**

you need to give me rights to the deck

Slide 5 mentions two streams running in parallel, but it describes Stream-2 as having a "foreign key" relationship to Stream-1. If I'm misinterpreting, feel free to disregard (though QBE might read it the same way I do). Also, I now have access to your deck. Cheers!

**Tuesday 02:17 Raturai Waghmode**

Hey

Was in transit

Let's talk tomorrow

Let's talk 1:1

**Tuesday 07:05 Defendant**

Copy

I think you need to email me your deck as I can't download it. Some points: Slide 3: Rename to "Our Contact Center Tuning Best Practices."

- Slide 5: Adjust the x-plot to show that Stream 1 learnings feed into Stream 2.
- Slide 6: Clarify that the 2-week Stream 1 supports the recommendations deliverable (remove the implication of needing 6 weeks).

- Slides 6, 10, 11: Fix the "Lucid Motoes" typo.
  - Slide 12: Consider moving this to the beginning of the presentation.
  - Slides 13, 16, 18: These may not be necessary for this Discovery presentation.
- safe travels. Last question, who is giving the presentation to QBE/Sydney? Would be great to have a quick Team's talk with him or her. Cheers!  
Regarding your "SC" note on the VMware project at Flagstaff Bank (Long Island)-if you give me the presentation for QBE in Sydney, I'll secure the business for you.  
Let me know how you'd like to proceed.

**Friday 18:09 Ruturaj Waghmode**

Cc: Albert Rojas <albert.rojas@mphasis.com>

Team,

I just finished a Teams meeting with Ruturaj, but due to a poor connection, I've attached a screenshot of our conversation: "**Ruturaj Today Chat.png**."

Per Ruturaj's request, I rewrote George's QBE proposal over the weekend. A transcript of our weekend chat is attached: "**QBEweekend.pdf**."

He then asked me to begin work on the Charles Schwab engagement, which I've also attached: "**Charles Schwab.pdf**."

Now, Ruturaj has informed me that he has "bad news" and is pulling me off all assignments. I am unclear on the reasoning behind this sudden change and would appreciate an explanation.

I have been working hard for Mphasis and would like to understand what happened.

Sincerely,  
Albert Rojas

## Exhibit (E) – December 22, 2024 – JIRA Tickets: Evidence QBE continued implementing Defendant’s solutions post-termination.

### Description:

Defendant’s structured methodologies—documented through JIRA tickets (the digital paper trail for task ownership, traceability, and collaboration)—captured remediation strategies for persistent failures in QBE’s Legal NDA platform originally developed by Accenture. Supporting materials included spreadsheets and video demonstrations of execution flaws. These JIRA records show that QBE continued to apply Defendant’s solutions even after Mphasis terminated him, demonstrating the enduring value of his work. This undercuts claims of misappropriation or harm, reinforcing that Defendant’s contributions enhanced, not damaged, Mphasis’s competitiveness.

Sun, Dec 22, 2024 at 4:36 PM

Thank you for the email, Palav. Let me assure you, there's no intent to smear anyone. The attachments and data speak for themselves.

The current system is like flying from London to New York by heading west instead of east across the Atlantic—an unnecessarily complicated and costly route. As you mentioned, the Azure Search blob is expensive, and as demonstrated in the attached exhibits, it's not even needed.

I was hired to consult on the application, and I fulfilled those responsibilities as required. It's been an honor working with QBE.

Sincerely,

Albert

Thank you, Palav!

I completely understand the frustration around costs—especially the ongoing expenses of keeping the Accenture team involved to reconcile the issues

I highlighted below. If they're unable to resolve it, don't hesitate to reach out to me directly.

Just to clarify, I never picked up the QBE laptop—it was FedExed to my New York apartment.

I'm hoping QBE IT can provide me with a FedEx

shipping label so I can return it promptly, particularly since I'm currently abroad.

Had the QBE Workday system simply locked the Cisco QBE client, I could have continued using the laptop instead of needing to pick up a Mac. As

you know, having a reliable machine while traveling is essential. Cheers!

Hey!

The QBE laptop is locked, so I've picked up a Mac and am preparing for some travels around Europe. I'm planning to drop off the QBE laptop at the

QBE London office tomorrow Monday 🙏.

On another note, what Accenture built is really suboptimal. You can achieve the same functionality with the Legal NDA using the approach I showed

you with the Auto app and a simple prompt—without the exorbitant costs of Azure Search and those static 1,000-token chunks 🙏.

Wishing both of you and your families a wonderful Christmas. It goes so fast so enjoy every moment.

Sincerely,

Albert

Subject: End date for contract Dec 31, 2024 - Follow-Up: Legal NDA App and Supporting Exhibits

Gents,

As my work with QBE concludes on December 31, I want to share a few important points and exhibits regarding my previous email (Fri, Dec 20, 2024, at 8:39 PM) with Dilip and the QBE team.

In that email, I mentioned:

*"If the current Legal NDA app doesn't meet the business's SLA requirements, feel free to use the solution I built for*

*DocNote.ai as a starting point for decoding NDAs."*

Below are supporting exhibits that validate my concerns and recommendations:

1. **12/19/24 - QBE PM.jpeg**

The QBE Project Manager confirmed the errors we raised and acknowledged the work in progress.

2. **12/14/24 - 4DilipErrors.pdf**

Updated NDAs and feedback highlighting incorrect prompt responses. I reiterated that we should delay the app's

release until it consistently delivers zero errors.

(Email timestamp: Sat, Dec 14, 2024, at 8:50 PM)

3. **12/01/24 - Screen Recording**

Demonstrates performance challenges and inconsistent prompt returns within the QBE Legal NDA app.

Please let me know if additional details or context are needed.

Cheers!

Albert

Hi Dilip,

I've submitted two NDAs through our QBE Legal system for your review. To ensure clarity, the second version is labeled *MPHASIS*. The relevant exhibits are attached for your reference.

I'd like to highlight that QBE Legal currently generates seven (7) incorrect prompt responses. In my view, we should delay its release until it consistently delivers zero (0) errors.

It has been an honor to serve you.

Respectfully,

Albert

Re: Your Violation of Contractual Agreements with Mphasis

Dear Mr. Rojas:

I am in-house counsel to Mphasis corporation (including its subsidiaries, “Mphasis”).

It has come to our attention that you have engaged in multiple, serious violations of your contractual

obligations—both during and after your employment with Mphasis. These breaches constitute a direct and

blatant disregard for the terms you agreed to, and we are treating them with the utmost severity.

Mphasis has already launched a formal investigation into the full scope of your misconduct, and we will

pursue all necessary actions to address the violations we uncover. You will be hearing from us soon

regarding the investigation and further potential consequences of your actions.

However, your unauthorized creation of <https://mphasis.nyc/> and your use of

[arojas@mphasis.nyc](mailto:arojas@mphasis.nyc) email ID,

demand immediate resolution. We expect your prompt cooperation—failure to act accordingly will escalate

this matter significantly.

Not only have you unlawfully removed Mphasis proprietary information from authorized company

equipment, but you have now recklessly published it openly on the internet. This is an egregious violation of

your contractual obligations, including but not limited to confidentiality, non-disclosure, privacy, and

intellectual property protection.

Therefore, Mphasis demands that you comply with the following corrective actions immediately:

1. 2. 3. 4. 5. 6. 7. Immediately cease and desist from using [arojas@mphasis.nyc](mailto:arojas@mphasis.nyc) as it is misleading and inappropriate.

Remove all Mphasis proprietary information from any unauthorized platforms, including <https://mphasis.nyc/> and any other locations where it has been published.

Cease any further use, distribution, or disclosure of Mphasis confidential and proprietary information in any form.

Provide a full written account of what information was taken, where it was stored or shared, and who may have accessed it.

Return all Mphasis property and confidential materials in your possession, whether physical or digital, including backups.

Certify in writing that you have fully complied with the above requirements and that no copies remain in your possession.

Identify any third parties who may have received access to Mphasis proprietary information so that

appropriate legal action can be taken. You must provide responses to the above demands to me (kathryn.terry@mphasis.com) and Vinod Kumar

(vinod.kumar09@mphasis.com) no later than Monday, March 17, 2025.

Let there be no doubt—your actions are a clear and egregious violation, and we will hold you fully

accountable. Failure to comply with these demands immediately will result in Mphasis pursuing all available

legal remedies, including litigation, injunctive relief, and financial damages.

You must also preserve and protect all documents (including emails and any other paper or electronic

documents in any form and on any storage medium) that may relate to the issues outlined in this letter against

destruction and loss, as these documents may be critical evidence in related litigation, to the extent that

becomes necessary.

We demand your **immediate compliance** with the corrective actions outlined above.

**Failure to act without delay will result in Mphasis pursuing all available legal remedies, including**

**injunctive relief and financial damages.** This matter is not negotiable.

Govern yourself accordingly.

Sincerely,

KATerry

Kathryn A. Terry

Mphasis

Assistant General Counsel – VP Legal

## **EXHIBIT (I) Apr 3, 2025 – A second cease-and-desist or threat letter from Mphasis or its counsel**

**Description:** Escalating the legal threats against Defendant. This further demonstrates Mphasis's intent to silence Defendant's whistleblowing through legal pressure, bolstering Defendant's claims of retaliation under Dodd-Frank and NYLL § 740

Re: Mphasis

Dear Mr. Rojas:

I represent Mphasis in matters related to employment. If you are represented by counsel, please immediately provide this letter to your counsel. It has come to my attention that you are engaging in a campaign of harassment, intimidation, and spreading false and defamatory information regarding Mphasis and its employees. Please direct any further communication regarding Mphasis to me and do not contact Mphasis directly.

Be advised that I have been authorized by Mphasis to take all available legal measures to ensure that you cease and desist this conduct, and to secure immediate return of Mphasis property

in your possession. If you fail to take the action requested in this correspondence, you could face additional legal action, including being named in a lawsuit to secure your cooperation, return Mphasis property, and potentially be held liable for costs and Mphasis attorneys' fees associated with its legal efforts to secure your compliance.

It has come to our attention that you have published and continue to publish false, misleading and potentially defamatory information on a website you created; [mphasis.nyc](http://mphasis.nyc). Mphasis has asked you repeatedly to cease using the website and to cease publishing information on the website. As you are aware, your disclosure of Mphasis' confidential and proprietary

information is a violation of your contractual non-disclosure and confidentiality obligations to the Company. Publishing this information outside the protection of Mphasis systems opens you up to additional litigation that could result in a judgment against you, including a court order to remove the information, take down the website, return the information to Mphasis, and pay damages, costs and potential attorneys' fees to Mphasis.

Most recently, it appears you have engaged in efforts to defraud Mphasis and the public by creating a false and intentionally misleading email whereby you pretend to pass yourself off as Atlanta ▪ Austin ▪ Berlin (Germany) ▪ Birmingham ▪ Boston ▪ Charleston ▪ Charlotte ▪ Chicago ▪ Cleveland ▪ Columbia ▪ Dallas ▪ Denver ▪ Detroit Metro ▪ Greenville ▪ Houston ▪ Indianapolis ▪ Jackson ▪ Kansas City ▪ Las Vegas ▪ London (England) ▪ Los Angeles ▪ Memphis ▪ Mexico City (Mexico) ▪ Miami ▪ Milwaukee ▪ Minneapolis ▪ Morristown ▪ Nashville ▪ New Orleans ▪ New York City ▪ Oklahoma City ▪ Orange County ▪ Paris (France) ▪ Philadelphia ▪ Phoenix ▪ Pittsburgh ▪ Portland ▪ Raleigh ▪ Richmond ▪ St. Louis ▪ St. Thomas ▪ Sacramento ▪ San Antonio ▪ San Diego ▪ San Francisco ▪ Seattle ▪ Stamford ▪ Tampa ▪ Toronto (Canada) ▪ Torrance ▪ Tucson ▪ Washington

April 3, 2025  
Page 2

Mphasis executives: Nitin Rakesh <nitin.rakesh@mphasis.it.com>. This conduct is unlawful and Mphasis will report it to law enforcement.

Mphasis demands that you immediately take down the website, cease using any false and misleading email addresses that suggest they belong to anyone other than yourself, return Mphasis's confidential and proprietary information, and cease communications directly with Mphasis and its personnel.

Mphasis also demands that you immediately return the QBE laptop which was provided to you during your employment. Depending on your location, you can return the laptop to my offices

in Paris, London, or New York City. If you prefer to send the laptop back to Mphasis, Mphasis will provide information to have the laptop packed and returned via FedEx.

Additionally, immediately:

- cease and desist from using arojas@mphasis.nyc; mphasis.nyc; and Mphasis.it.com as they are misleading and inappropriate;
- remove and return to Mphasis all Mphasis proprietary information from any unauthorized platforms, including <https://mphasis.nyc/> and any other locations where it has been published;
- return all Mphasis property and confidential materials in your possession, whether physical or digital, including backups; and
- cease and desist from distribution, or disclosure of Mphasis confidential and proprietary information in any form.

Please respond to this letter within five (5) days of receipt: (1) acknowledging in writing your awareness of the demands contained in this letter, (2) certifying in writing the steps you

have made and are making to comply with Mphasis' demands contained in this letter, and (3) providing your written commitment to abide by your legal obligations to Mphasis in the future. If I do not hear from you within five (5) days, I will assume that you have no intention of complying with your legal obligations and I will proceed to advance all legal remedies available to protect Mphasis' rights. Please give this matter your most sincere attention. I look forward to hearing from you.

Sincerely,

*/s/ William E. Grob*

## **EXHIBIT (K) APR. 17 & 20, 2025 - PLAINTIFF'S LEGAL COUNSEL ISSUES CONFLICTING INSTRUCTIONS**

### **Description:**

This exhibit contains metadata from email systems showing that Mphasis and their legal counsel  
Description:

On April 17, 2025, Plaintiff's counsel, Kimberly R. Karseboom, instructed Defendant to communicate solely through his personal email (rojas.albert@gmail.com), stating: "We will only respond to you directly at this email address (not any with @mphasis.it.com) or through your counsel."

**On Apr 17, 2025, at 5:57 PM** Karseboom, Kimberly R. <kimberly.karseboom@ogletree.com> wrote to: A R <rojas.albert@gmail.com>

Good morning Mr. Rojas,

Your Answer will suffice as your response to the Complaint. Please let me know if you have an attorney or will be representing yourself pro se. We will only respond to you directly at this email address (not any with @mphasis.it.com) or through your counsel. We will not respond to communications that include our client personnel or anyone outside of our law firm.

Thank you,

**Kimberly R. Karseboom | Ogletree Deakins**

599 Lexington Avenue, 17th Floor | New York, NY 10022 | Telephone: 212-492-2078  
kimberly.karseboom

However, just three days later, on April 20, 2025, Plaintiff's counsel blocked Defendant's personal email, rejecting his attempts to submit legal filings (see attached mailer-daemon notice). This deliberate obstruction left Defendant without a functional channel to communicate, in direct contradiction to counsel's prior instructions, exemplifying Plaintiff's pattern of inequitable conduct.

**On Apr 20, 2025** Plaintiff's counsel blocked Defendant's personal email

Hey Dilip,

I'm still in Cannes, my friend, and your QBE Dell laptop is just collecting dust in my New York apartment. In hindsight, I should have dropped it off at QBE London. I'll take care of it once I'm back in New York, just drop it off at QBE offices down in the financial district.

Hope all is well,

Albert <https://mphasis.it.com/>

## Exhibit (M) 29 Apr 2025 - Correspondence Regarding QBE Laptop Return

### Description:

This exhibit contains email communications between Defendant Albert Rojas, Plaintiff Mphasis, QBE representatives, and Plaintiff's counsel at Ogletree Deakins, documenting Defendant's repeated efforts to return a QBE-issued Dell laptop. Despite requests dating back to December 2024, Mphasis and QBE failed to provide a standard FedEx shipping label and return instructions for over five months. Defendant's communications highlight concerns over the persistent delays, conflicting responses, and irregular asset handling, raising questions regarding compliance failures, audit risks, and potential improper financial practices. Submitted under penalty of perjury, these exchanges are material to Defendant's whistleblower defenses and requests for targeted financial discovery.

**From:** Legal <legal@mphasis.cloud>

**Subject: Re: Shipping Label and Box Request for QBE Laptop**

**Date:** April 29, 2025 at 4:50:25 pm CEST

**To:** "Kimberly R. Karseboom" <kimberly.karseboom@ogletree.com>

**Cc:** Dilip Nayak <dilip.nayak@qbe.com>, "andrew.horton@qbe.com" <andrew.horton@qbe.com>, "nitin.rakesh@mphasis.com" <nitin.rakesh@mphasis.com>

Dear Ms. Karseboom,

Thank you for your response.

Respectfully, your message does not answer the fundamental question: **Why has it taken over five (5) months to provide a basic FedEx shipping label for the return of a QBE laptop?**

Despite repeated requests dating back to December 2024, this matter remains unresolved — contrary to normal corporate practice, which demands prompt action to ensure asset accountability and audit compliance.

Given the highly irregular delay, I expect a direct answer: **What caused the five-month lapse?** Please respond without further deflection.

Submitted under penalty of perjury,  
Albert Rojas

**Subject:** Re: Shipping Label and Box Request for QBE Laptop

**[Caution: Email received from external source]**

Dear Mr. Nayak,

Good to hear from you.

Respectfully, it remains unclear why it has taken over five (5) months for QBE to provide a basic FedEx shipping label for the return of the QBE Dell laptop, despite my repeated requests dating back to December 2024.

Given the extended delay and lack of standard corporate procedure, I am compelled to question whether this obstruction was intentional. As you are aware, global enterprises typically facilitate asset returns promptly to maintain accountability, chain of custody, and avoid potential audit irregularities.

Please advise immediately on when the shipping label and box will be properly provided so that this return may be finalized without further unnecessary delay.

Submitted under penalty of perjury,

Albert Rojas

**Subject:** Re: Shipping Label and Box Request for QBE Laptop

This email was sent from someone outside of QBE. Be cautious opening links and attachments. Use the 'Report Phishing' button if suspicious.

Dear Counselor,  
 As I previously informed Mr. Kelly, I can easily have my neighbor place the QBE Dell laptop into a box and apply a shipping label for return.  
 The persistent obstacles and irregularities surrounding this simple return process underscore why I previously raised concerns that QBE and Mphasis may be engaged in improper financial practices, potentially rising to the level of money laundering. Reputable global enterprises do not operate with this degree of disorganization and obfuscation.  
 Accordingly, I respectfully reiterate my request: please provide a FedEx shipping label and a box, as is standard practice for corporate asset returns, so that the laptop can be returned properly and expeditiously.  
 Submitted under penalty of perjury,  
 Albert Rojas

**Subject:** Re: Shipping Label and Box Request for QBE Laptop

**[Caution: Email received from external source]**

Dear Ms. Karseboom,  
Respectfully, your offer to send a courier to my apartment today is not feasible. As I informed Mr. Kelly on April 11, I am currently in France. This fact was clearly communicated during our call, yet it appears it has either been disregarded or not properly relayed. Since December 2024, I have repeatedly requested a standard and simple solution: email me a FedEx shipping label and arrange for a box to be sent. This is consistent with common corporate practices for asset tracking and chain-of-custody management, and it avoids the unnecessary complications we are now facing. QBE itself rejected informal drop-offs in both London and New York precisely because a formal shipping process is necessary to properly document the return. It remains the most efficient and professional way to complete this task. Please confirm that you will provide a FedEx label and box so this matter can be resolved without further avoidable delays.  
Respectfully submitted,  
Albert Rojas

**Dear Counselor,**

As a follow-up, any assistance from Mphasis or QBE in providing a FedEx shipping label and a suitable box for the return of the QBE Dell laptop would be sincerely appreciated.

I have been attempting to complete this return since December 2024.

I currently maintain an apartment in New York City where desk space is limited, and having the appropriate materials would help expedite the return in an efficient and secure manner.

Thank you for your cooperation.

**Dear Counselor,**

I am not an attorney, but I am fully aware of my legal rights, including protections under federal and state law against retaliation, intimidation, interference, and obstruction.

I have also lawfully communicated with QBE employees regarding the laptop and related matters, as the property in question belongs to QBE, not Mphasis.

Any further attempts to interfere with these communications or to intimidate me will be documented and may be used to assert claims under applicable law.

I am preserving all rights and remedies at law and in equity.

**Govern yourself accordingly.**

Mr. Rojas,

This is the last warning. Stop contacting Mphasis employees.

Dear Counsel and Stakeholders,

Please be advised:

1. **QBE.world** is now live and actively maps to **mphasis.cloud**, **mphasis.nyc**, and **mphasis.it.com**, maintaining continuity of protected whistleblower disclosures.

Regarding the QBE-issued Dell laptop:

1. On December 22, 2024, QBE's VP, Palavesam Chandrasekar, admitted confusion about return logistics, stating he was "not sure about UK" shipping and deferring to Mphasis leadership for further action.
2. Despite repeated offers to coordinate the return, no shipping label or clear instructions were ever provided.
3. Instead of facilitating the return, QBE and Mphasis escalated matters into retaliation and litigation based on factually unsupported allegations.

For full context, below is the December 22, 2024 email excerpt from Mr. Chandrasekar:

"@Albert Rojas Yes QBE will give you shipping within US not sure about UK. Please discuss with Mphasis leadership on their agreement on hardware with QBE. I don't enjoy your persistent smear on QBE application build with their partners... I don't want to hear or see any more email from you on any QBE application or partners."

The record reflects that:

1. I never picked up the laptop in person—it was FedExed to my New York residence.
2. I remained open to arranging return by personal delivery or through QBE's London offices.
3. I actively sought resolution through multiple channels—including with QBE, Mphasis, and counsel—before being met with hostility and false accusations.

Given these facts, claims of unauthorized possession or misconduct are unsustainable and further support my affirmative defenses of **unclean hands** and **retaliation**.

I remain open to good faith dialogue if the parties wish to deescalate unnecessary posturing.

**UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF NEW YORK**

**Mphasis Corporation,**  
Plaintiff,  
v.  
**Albert Rojas,**  
Defendant.

**Case No. 25-cv-3175**

**MEMORANDUM OF LAW IN SUPPORT OF MOTION TO COMPEL QBE  
TO PROVIDE RETURN SHIPPING MATERIALS OR SHOW CAUSE**

**I. PRELIMINARY STATEMENT**

This motion seeks a narrow but urgent remedy: compelling non-party QBE to issue a FedEx shipping label and packaging materials so that Defendant may return a QBE-issued laptop containing sensitive corporate data. Defendant has offered repeatedly since December 2024 to return this device. QBE has refused to provide a return label or materials — a basic corporate practice — while remaining silent or obstructive through its representatives.

**II. FACTUAL BACKGROUND**

Defendant has documented efforts to return the laptop in emails and declarations, including offers to have a neighbor box and ship the device. Mphasis's own counsel has acknowledged this history. Despite that, QBE has failed to act, and on April 29, 2025, a senior QBE official ordered internal disengagement from communication regarding this matter.

The laptop contains data likely protected under CCPA, NY SHIELD Act, and potentially GDPR. Delaying its return exposes QBE to unnecessary risk and undermines its own assertions of regulatory compliance.

**III. ARGUMENT**

**A. Rule 37 Permits Compelling Action from Non-Parties in Possession of Relevant Materials**

The Court may issue orders to compel non-parties to act where refusal obstructs justice or prejudices the case. This includes failures to participate in discovery or respond to clear procedural obligations.

**B. Defendant Has Acted in Good Faith; QBE Has Not**

Defendant's efforts have been consistent, professional, and well-documented. QBE's refusal to provide even a return label is unreasonable and suggests bad faith or internal disarray. This warrants Court intervention.

**C. QBE's Conduct Contradicts Its Compliance Claims**

A company claiming regulatory integrity should not ignore lawful and repeated requests to secure the return of corporate property. Its actions here are inconsistent with standard business practice and potentially expose all parties to risk.

**IV. RELIEF REQUESTED**

The Court should:

1. Order QBE to provide shipping materials within three (3) days; or
2. Require QBE to show cause within seven (7) days why it has failed to do so.

This motion seeks no sanctions and imposes minimal burden. It merely seeks resolution of a matter QBE has neglected for months.

v.

**Albert Rojas,**  
Defendant.

**Case No. 25-cv-3175**

**DECLARATION OF ALBERT ROJAS IN SUPPORT OF MOTION TO  
COMPEL QBE TO PROVIDE RETURN SHIPPING MATERIALS OR  
SHOW CAUSE**

I, Albert Rojas, hereby declare as follows:

1. I am the Defendant in the above-captioned matter and appear pro se.
2. In or around December 2024, I informed representatives of QBE and Mphasis that I was willing and able to return the QBE-issued Dell laptop containing corporate data. Despite my repeated requests, no FedEx shipping label or packaging materials have been provided.
3. I offered to have a neighbor assist with physically packaging and shipping the device while I was outside the country. This offer was ignored.
4. QBE and Mphasis continue to allege wrongful possession of the laptop, while simultaneously preventing its return. On April 29, 2025, a QBE executive ordered all internal personnel to disengage from communication on this issue.
5. The laptop contains corporate information that may fall under data protection frameworks such as GDPR, CCPA, or the NY SHIELD Act.
6. I bring this motion in good faith and ask only that the Court compel QBE to issue a standard shipping label or explain why it has refused to do so for over five months.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

v.  
**Albert Rojas,**  
Defendant.

**Case No. 25-cv-3175**

**[PROPOSED] ORDER TO COMPEL NON-PARTY QBE TO PROVIDE  
RETURN SHIPPING MATERIALS OR SHOW CAUSE**

Upon consideration of Defendant Albert Rojas's Motion to Compel Non-Party QBE to Provide Return Shipping Materials or Show Cause for Noncompliance, and the supporting declaration and memorandum of law, and for good cause shown:

IT IS HEREBY ORDERED that:

1. QBE shall, within three (3) days of entry of this Order, provide Defendant with a FedEx shipping label and appropriate packaging to facilitate the return of the QBE-issued Dell laptop; or
2. QBE shall, within seven (7) days of entry of this Order, appear and show cause in writing why it has failed to do so despite repeated offers by Defendant to return the device since December 2024.

IT IS FURTHER ORDERED that failure to comply may result in further relief under Rule 37 of the Federal Rules of Civil Procedure or other appropriate sanctions.

SO ORDERED.
